A&M Public Sector Services

A&M has had a dedicated Public Sector Services practice since 2003. Over the last 20 years, we've delivered results for over 400 government agencies in nearly every state, the District of Columbia and the U.S. Territories.

Recent A&M Engagements with State & Local Governments

State & Local Government

Collaborate with state and local government leaders to improve financial and operational management, reassess and reinvigorate distressed projects, and drive efficiency and innovation.

Health & Human Services

Partner with State Medicaid, long term care and related agencies to assess and stabilize services and operations, engage stakeholders, transform programmatic operations and finances, and provide fiscal and operational accountability.

Education

Provide critical guidance to education leaders to improve the ROI of educational spending by implementing financial and operational improvements, realigning resources with strategic priorities and evaluating new funding models and opportunities.

Federal

Partner with Federal government departments and agencies to maximize performance and efficiency through financial, strategy & operations, and digital and analytics transformation.

A&M Public Sector Services

PROVEN STATE GOVERNMENT PARTNERS

State and Local Government Service Offerings

Our mission is to help state and local governments solve problems and sustainably improve the lives of the people they serve. We do so by driving transformational change that improves transparency, accountability, fiscal responsibility and operational effectiveness.

Financial Transformation

Provide the financial insights and leadership needed to make informed strategic decisions that result in long-term financial sustainability

Medicaid/Health & Human Services

Help Medicaid and related agencies assess, stabilize and transform programs programs and services, and support agency leaders as they evaluate and implement changes necessitated by significant federal budget and policy reform.

Infrastructure & Capital Projects

Help public agencies more effectively plan and deliver major capital projects through capital planning, procurement, project management, governance and risk management

Government Efficiency

Help governments rethink how they operate and how their mission can be achieved through new resource approaches, delivery models and partnerships

Digital & Technology Services

Transform governments through rapid discovery, exacting action and practical solutions that effectively leverage today's technology and digital tools

Economic Development

Analyze and analyze public-private partnerships and other economic development initiatives to maximize value to the public.

WE'VE BEEN THERE!
