

## OUR SERVICE OFFERINGS

### CORPORATE TAX COMPLIANCE AND REPORTING

In today's dynamic environment, meeting local tax and accounting requirements is far more than a routine exercise—it is a strategic necessity. Our comprehensive approach integrates technology, transformation, and compliance expertise to help organizations stay ahead. We work closely with clients to design and implement effective strategies for their tax functions, ensuring obligations are met accurately and on time while maintaining robust documentation to support tax filing positions. Our focus is on reducing administrative burdens and costs, managing risks, improving quality, and generating strategic value across the organization.

### TAX ADVISORY

A&M provides strategic and practical guidance to support businesses dealing with increasing tax complexity. Our team collaborates closely with clients to ensure that transactions and structures comply with local and/or international tax laws while optimizing tax positions. We focus on enhancing the business's financial performance while maintaining strict adherence to regulatory standards.

### TAX CONTROVERSY

We help clients prepare for and manage pre-formal and formal audits conducted by the Thai Revenue Department. When audits escalate, we assist clients in managing interactions with the authorities, prepare defensible explanations, compile supporting documentation, and guide them through each step to resolve issues efficiently. Our focus is on mitigating risks, minimizing surcharges and penalties, and providing greater certainty in tax positions.

### TAX IMPLEMENTATION

From advice to action—we deliver results. We transform tax strategies into measurable outcomes through comprehensive implementation and execution support. Once a client decides on the way forward, we work closely with the company's team to develop a clear and practical action plan, prepare and submit the necessary documentation, and manage interactions with authorities and stakeholders to keep approvals and deliverables on track. We also provide post-transaction support to confirm compliance and address any follow-up requirements under the relevant regulations.
