

## CASE STUDY

# P3 FRAMEWORK APPLIED AT DARTMOUTH COLLEGE

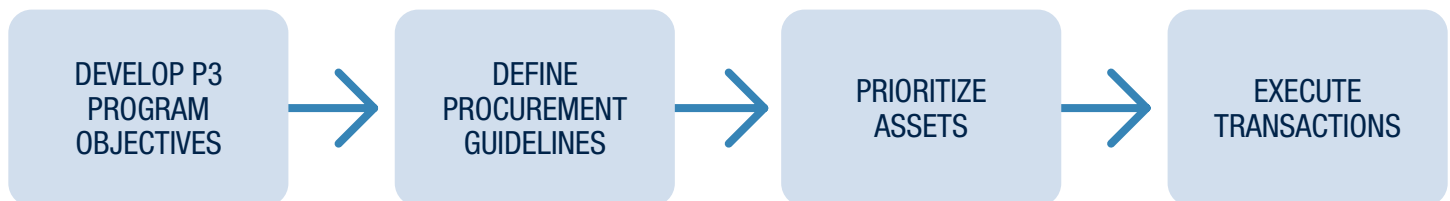

## THE CHALLENGE

Alvarez & Marsal (A&M) is currently engaged by Dartmouth to develop a P3 framework for the college to address critical facilities needs and opportunities, including a shortage of graduate student housing and a portfolio of underutilized edge and non-core land assets.

## A&M APPROACH

### Develop Framework and Portfolio Execution Strategy

Initially, A&M assisted the college by designing a P3 program to develop and operate real estate assets. This framework provides a standardized way to rank and execute projects based on key factors, including mission alignment, value generation and ease of execution.

### Project Feasibility Analysis

The first project for execution is an 830-bed graduate student housing facility that combines an existing 500-bed property, selective demolition of outdated units and construction of over 400 new beds for use by Dartmouth's business, medical, engineering and liberal arts graduate students. A&M modeled several distinct transaction types and defined the program and operating assumptions that would support the college's financial requirements.

## Procurement Development and Support

A&M is guiding Dartmouth through a streamlined partner selection process. A&M vetted over 25 student housing development firms and invited a small set to attend a campus site visit and respond to a request for proposals. This customized solicitation process will reduce the project duration, facilitating an expedited delivery schedule.

## Negotiations and Execution Support

After reviewing proposals and identifying the optimal partner, A&M will support the college's legal counsel in the development of all transactional documents, ensuring that Dartmouth's business goals are captured appropriately. A&M will assist Dartmouth in achieving favorable balance sheet treatment while managing the college's risks exposure throughout the project term.

A&M serves the unique needs of universities, enabling leaders to tackle the challenge of debt ceilings and budget limitations by unlocking value from excess and underutilized assets. The A&M team has delivered over 130 P3 transactions on behalf of public sector entities and higher education institutions, including Dartmouth College.
