

D. Yaretz #2
August 23, 2011

NO. S115028
VANCOUVER REGISTRY

IN THE SUPREME COURT OF BRITISH COLUMBIA

IN THE MATTER OF THE *COMPANIES' CREDITORS ARRANGEMENT ACT*,
R.S.C. 1985, c. C-36, AS AMENDED

AND

IN THE MATTER OF THE *CANADA BUSINESS CORPORATIONS ACT*, R.S.C. 1985, c. C-44

AND

IN THE MATTER OF PAKIT INC.

PETITIONER

AFFIDAVIT

I, Dwayne Yaretz, businessman, of 2250-1050 West Pender Street, Vancouver, SWEAR (OR AFFIRM) THAT:

1. I am the President of the Petitioner, and as such I have direct knowledge of the facts and matters hereinafter deposed to, except where stated to be on information and belief, and where so stated I verily believe them to be true.

2. I am authorized to make this affidavit on behalf of the Petitioner in support of an application to extend the initial order.

3. During the period since the initial order was made herein, the Petitioner has been diligently seeking to stabilise its cash flow so that it can sustain its operation and put forward a plan for its creditors.
4. The company requires approximately \$601,000 per month (plus professional fees of approximately \$150,000) to maintain its operations during the restructuring period. Eventually, the company hopes to achieve that level of income and more from the sale of its machines and related products and services, but the process of converting machine sales into revenue has taken longer than anticipated.
5. The projected (consolidated) cash flow that was relied upon to obtain the initial order anticipated that the Petitioner would receive operating funds over the coming month from several sources including further cash investments (\$470,000 (USD 500,000) in weeks 2 and 3 and \$500,000 in week 4) and further payments totalling \$641,000 from its customer Grupo San Cayetano (“Cayetano”) following commissioning of the facility in which the machines that have already been purchased and delivered are being housed.
6. The Petitioner did receive \$457,000 from the investor between weeks 2 and 3 although this was made as a loan directly to me and I loaned the money in turn to the Petitioner.
7. The remaining funds from the investors have been delayed. The Petitioner now expects to receive those funds several weeks behind schedule. I understand this to be due to the need for the investors to liquidate other investments in the market in order to free up the necessary funds to make the investment in the Petitioner. This process was complicated over the last month due to unanticipated turmoil in the markets. I understand from the investor and verily believe that second US\$500,000 has now been liquidated and will be paid to the Petitioner in the week of September 2, 2011.
8. The Petitioner has also obtained subscription agreements for additional equity investments of approximately \$143,000 from several shareholders which are being held in trust to be received if the Petitioner obtains an extension to the initial order of at least 20 days on this application.

9. With respect to Cayetano, 60% of the purchase price for the machines it has purchased has already been paid and a further 30% was supposed to be made in week 5 (by August 26). This payment will not be made on schedule. The problem is that Cayetano refuses to make the payment until the machines are operating to certain specifications in the facility that has been built for them. This has not happened because a cooling tower in the facility was not installed properly by a third party contractor. The Petitioner is working with the contractor responsible for the cooling tower in an effort to get it operating properly so that the anticipated payments from Cayetano can resume as projected.
10. Within the last 24 hours, Cayetano sent a letter to the Petitioner repudiating the sales contracts on the basis of alleged problems with the machines. The Petitioner is urgently working with Cayetano to resolve the issues raised in the letter.
11. The Petitioner has in the past week made further progress towards a sale with another customer who has signed a letter of intent to purchase five machines in this calendar year, which, if such sales proceed, will result revenues in excess of \$15 million. The customer is expected to pay a deposit of \$100,000 to reserve a production slot for the first machine in the near future.
12. A third customer who has provided a letter of intent to purchase several machines has in the last two weeks engaged an engineering firm to perform a site analysis to construct a new facility to house the machines, with an initial purchase anticipated of 8-12 machines.
13. A fourth customer has signed a letter of intent anticipating ordering two machines in September, 2011.
14. The Petitioner has also been seeking to restructure its business to reduce costs. The Petitioner has been identifying costs that can be reduced on a go-forward basis. That process is underway and will continue to be pursued over the coming weeks.

15. Attached and marked as Exhibit A to this my affidavit is an updated cash flow that has been prepared assuming that the issues raised in the last 24 hours by Cayetano are resolved so that the anticipated payments for the purchased machines are received in the coming weeks. I believe that the projections in the attached cash flow are reasonable and can be achieved, provided the problems with Cayetano are resolved in the near future.

SWORN BEFORE ME at the City of)
Vancouver, in the Province of British)
Columbia, this 21st day of August, 2011.)

A Commissioner for taking Affidavits for
British Columbia.

WARREN B. MILMAN
Barrister & Solicitor

Notes:

- The purpose of these cash flow forecasts is to set out the liquidity requirements of the Pakit Companies during the CCAA proceedings. Since projections are based on assumptions regarding future events, actual results will vary from the information presented, and the variations may be material.
- Customer collections primarily relate to collection from one customer based in Spain. The customer has provided a letter to Pakit repudiating the contracts with Pakit and the related contract payments. Management assumes they can reach a negotiated settlement resulting in the collection of the receipts as shown above. A non-related customer deposit of \$100,000 is also forecast to be received in Week 5.
- A number of investors have submitted subscription agreements for the purchase of shares for approximately \$100,000 in Week 5. In addition, an investor group has signed a subscription agreement for an equity investment of US\$500,000 (CAD\$495,000) to be received in Week 5.
- Raw materials and production costs have been forecast based on estimated costs to complete units and prototypes for delivery in the period.
- Operating disbursements including rent, payroll and other operating costs have been forecast generally based on the current run-rates of the associated expenses. Other general and administrative expenses include travel, insurance and office costs.
- Professional fee disbursements have been forecast based on projected costs by professional services firms relating to the restructuring.
- Pre-filing amounts generally relate to credit card cancellation, which were cash collateralized.
- Other liabilities relate to amounts owed by Pakit International Trading Company Inc. ("Pikit International") and Packaging International Technology Sweden AB ("PIT") prior to the Pakit Inc. filing date and are assumed to be paid in order to support the ongoing operations of these entities and related receipts. These payments include PIT payroll taxes of \$200,000 (\$120,000 paid to date), VAT of \$215,000 (\$135,000 paid to date), payments to suppliers required to complete machines for completion in the forecast period of \$341,000 (\$40,000 paid to date) and patent related legal fees of \$170,000 (\$15,000 paid to date).

Notes:

- The purpose of this cash flow forecast is to set out the liquidity requirements of Pakit Inc. during the CCAA proceedings. Since projections are based on assumptions regarding future events, actual results will vary from the information presented, and the variations may be material.
- The \$88,000 receipt in Week 7 relates to an amount due from Pepsico under a research agreement.
- A number of investors have submitted subscription agreements for the purchase of shares for approximately \$100,000 in Week 5. In addition, an investor group has signed a subscription agreement for an equity investment of US\$500,000 (CAD\$495,000) to be received in Week 5.
- Operating disbursements including rent, payroll and other operating costs have been forecast generally based on the current run-rates of the associated expenses. Other general and administrative costs include travel, insurance and office costs. These disbursements include the cost of one employee employed in Pakit USA.
- Professional fee disbursements have been forecast based on projected costs by professional services firms relating to the restructuring.

Notes:

1. The purpose of this cash flow forecast is to set out the liquidity requirements of Pakit Inc. during the CCAA proceedings. Since projections are based on assumptions regarding future events, actual results will vary from the information presented, and the variations may be material.
2. Customer collections primarily relate to collection from one customer based in Spain. The customer has provided a letter to Pakit repudiating the contracts with Pakit and the related contract payments. Management assumes they can reach a negotiated settlement resulting in the collection of the receipts as shown above. A non-related customer deposit of \$100,000 is also forecast to be received in Week 5.
3. Raw materials and production costs have been forecast based on estimated costs to complete units and prototypes for delivery in the period.
4. Other liabilities relate to amounts owed by Pakit International prior to the Pakit Inc. filing date and are assumed to be paid in order to support the ongoing operations and related receipts. These payments include \$95,000 for legal fees for the patent attorneys (\$15,000 paid to date), \$120,000 (\$40,000 paid to date) for a supplier that is required to perform further work to complete the machines shipped in Week 13.

Notes:

- The purpose of this cash flow forecast is to set out the liquidity requirements of Pakit Inc. during the CCAA proceedings. Since projections are based on assumptions regarding future events, actual results will vary from the information presented, and the variations may be material. Bank of Canada exchange rate for Swedish Krona to Canadian dollars as at August 23, 2011 plus expected spread of \$0.005 per krona.
- Operating disbursements including rent, payroll and other operating costs have been forecast generally based on the current run-rates of the associated expenses.
- VAT payments due post July 12, 2011 are assumed to be paid during the forecast period.
- Rent and utilities payments are assumed to be made on a monthly basis to be applied to oldest outstanding invoice. As at August 16, 2011 there is approximately \$45,000 arrears outstanding.
- Other liabilities relate to amounts owed by PTT prior to the Pakit Inc. filing date including payroll tax of \$200,000 (\$120,000 paid to date), VAT tax of \$215,000 (\$135,000 paid to date), income tax of \$18,000 (\$9,000 paid to date), payments to suppliers required to complete machines of \$221,000 as well as \$55,000 (\$27,000 paid to date) to suppliers required to support ongoing operations including telephones and CAD systems.
