PETITIONERS

AFFIDAVIT

I, **THOMAS JAMES PAPPAJOHN**, of 20th Floor, 250 Howe Street, Vancouver, British Columbia,
Developer, SWEAR THAT:

INTRODUCTION

1. I am a director of the petitioners: 1061511 B.C. Ltd. ("**106**") and Jameson Broadway & Birch General Partner Ltd. (the "**GP**"). The GP is the sole general partner of the petitioner Jameson Broadway & Birch Limited Partnership (the "**LP**") and together with 106 and the GP, the "**Petitioners**") and as such I have personal knowledge of the matters herein deposed to, except where such facts are stated to be based upon information and belief and where so stated I do verily believe the same to be true.

2. This affidavit is made in support of a petition (the "**Petition**") by the Petitioners for an initial order (the "**Initial Order**") under the *Companies' Creditors Arrangement Act*, R.S.C. 1985, c. C-36, as amended (the "**CCAA**"), to facilitate restructuring the business and affairs of the Petitioners. If the Initial Order is granted on or about November 25, 2025, this affidavit will also provide

background for a proposed hearing for extending the relief in the Initial Order and additional relief at the comeback hearing on or about December 5, 2025 (the "**Comeback Hearing**").

3. In preparing this affidavit, I have relied in various instances on information provided to me by the other directors and advisors of the Petitioners, and where I have relied on such information, I believe such information to be true. Based on my understanding of the matters deposed to herein and from my own review of the Petitioners' books and records, I believe the facts set out herein, as well as those set out in the Petition, are true and correct in all material respects.

4. All amounts are in Canadian dollars unless otherwise indicated.

5. I am authorized to make this affidavit on behalf of the Petitioners and the Petitioners have authorized the filing of the Petition.

6. For the reasons set out herein, I verily believe that the Petitioners are insolvent and are entities to which the CCAA applies.

OVERVIEW

7. The Petitioners have spent several years developing and building a 28-storey residential rental and commercial construction project at 2538 Birch Street, Vancouver, British Columbia, which is on the southeast corner of West Broadway and Birch Street (the "**Development**").

8. The Development is comprised of a single mixed-use tower with five levels of underground parking. More specifically, the Development consists of 258 rental units, 58 of which will be units under the City of Vancouver's Moderate Income Rental Housing Pilot Program (the "**MIRHPP Units**"), atop a commercial podium with office and retail space (leasable area of 24,455 square feet) on the first three levels, with 168 vehicle parking stalls in the underground parking plus storage lockers and bicycles parking.

9. The Development is near completion, approximately 91%. All 28 stories have been constructed, suite drywall is essentially complete, and outstanding work is primarily related to finishing. Subject to necessary funding to complete the Development, completion is expected by May 2026.

10. In September 2025, due to concerns regarding the payment of interest and fees, the Petitioners' construction lender suspended all further draws and advances under the Petitioners' construction facility, restricting the Petitioners' cash flow. The Petitioners are now in the midst of a liquidity crisis.

11. As of November 2025, the Petitioners had approximately \$156,500,000 owing to its construction lender and further amounts outstanding to third party creditors of approximately \$8,500,000. The Petitioners have insufficient cash to pay their liabilities as they come due.

12. The Petitioners estimated costs to pay the outstanding amounts owing to it's the general contractor and to complete the Development are approximately \$20.3M.

13. The Petitioners have largely finished construction of the Development (approximately 91% complete). The Petitioners have an interested purchaser for the Development (with an executed purchase agreement as set out in more detail below), which purchase would repay all creditors in full and create positive opportunities in the City of Vancouver. However, completion of this sale (or any other sale or refinancing) is predicated on completing the Development. More generally, recovery for creditors (regardless of process) will require completion of the Development.

14. Further, as set out in more detail below, the Petitioners have a commitment for funding the completion of the Development within a CCAA proceeding, approval of which will be sought at the Comeback Hearing.

15. The Petitioners' efforts over the past several months have made it clear that relief under the CCAA is necessary to bring a sale to fruition. If provided with protections under the CCAA, including a stay of proceedings, I believe the Petitioners' leadership can capitalize on their extensive project knowledge and relationships to complete the construction and sale of the Development offering the greatest benefit to stakeholders.

16. Accordingly, the Petitioners believe it is in the best interests of the Petitioners' stakeholders to apply for relief under the CCAA.

BACKGROUND

17. The Petitioners are in the business of developing and constructing the Development.

18. Work on the Development began in 2017 and, as noted above, the Development is close to completion. Specifically:

- (a) the site was assembled in March 2017;
- (b) the first re-zoning application was submitted to the City of Vancouver in September 2017, which was amended in December 2020;
- (c) the City of Vancouver approved the MIRHPP Units and density increase in December 2020;
- (d) development and building permits were addressed in 2020-2022;
- (e) construction and excavation commenced in February 2023 and was completed in September 2023;

- (f) concreted framing started in September 2023 and the concrete structure was completed in August 2025;
- (g) utilities started in January 2024 and were substantially completed in August 2025;
- (h) finishing commenced in June 2024; and
- (i) roof waterproofing occurred April to June 2025.

19. The completion of construction of the Development is anticipated to be May 2026 (subject to necessary funding), which requires completion of:

- (a) commercial podium curtain wall glazing;
- (b) interior finishing of outstanding suites and corridors;
- (c) minor balcony glazing;
- (d) landscaping; and
- (e) parkade finishing (traffic coding and line painting).

20. Final city inspections are anticipated in early June 2026.

21. In September 2025, the Petitioners' made construction draw requests from the Petitioners' secured construction lender, British Columbia Housing Management Commission ("**BC Housing**"), but BC Housing denied the draw request. As discussed in more detail below, the Petitioners' have drawn \$156,500,000 of the facility, of a total facility of \$164,227,655. At the time of the September draw request, BC Housing advised that \$8,102,312 of the loan facility would be held back for estimated interest, loan fees and legal costs to discharge the loan and security. As a result, BC Housing denied the further advances. BC Housing has more recently confirmed that there is only \$150,000 available under the construction facility due to the noted hold backs.

22. Without seeking creditor protection under the CCAA, the Petitioners do not have an alternative source of construction funding. As a result, construction on the Development has stopped. As noted above, the Petitioners have a commitment for funding the completion of the Development within a CCAA proceeding, approval of which will be sought at the Comeback Hearing.

30. The LP is a co-obligor on each of the credit facilities providing construction funding for the Development and is also a co-obligor under the Purchase Agreement (defined below) in respect of the sale of the Development.

31. The operations of the GP and the LP are significantly intertwined in constructing, developing, renting and selling the Development. The LP could not pursue its partnership purpose without the contributions and management of the GP.

This entity is not a shareholders of the GP or a partner in the LP. Now shown to me and attached as **Exhibit "C"** is a copy of the Development Management Agreement among the LP, GP and the Development Manager made effective June 7, 2019.

37. Metro-Can Construction (BB) Ltd. ("**Metro-Can**") is the general contractor for the Development.

38. The Petitioners do not currently directly employ any individuals in British Columbia. The individuals working on the Development are employed by third-party contractors hired by the LP and the GP and the Development Manager.

Jameson Development Corp.

39. I am a director of Jameson Development Corp. and as such I have personal knowledge of the matters herein deposed to, except where such facts are stated to be based upon information and belief and where so stated I do verily believe the same to be true.

40. The Development is a project by Jameson Development Corp., which is a family-owned and Vancouver-based developer. James Holdings Ltd. is typically one of the limited partners in projects by Jameson Development Corp.

41. Jameson Development Corp. has been involved in the acquisition, restoration, development and management of properties throughout the City of Vancouver for almost 30 years. During that time, Jameson Development Corp. has completed 11 projects.

42. John, Tony and myself are all directors of Jameson Development Corp., and as noted above are directors of the GP and 106. We have extensive experience completing real estate projects in the Lower Mainland with Jameson Development Corp., specifically:

- (c) Tony has been the involved with Jameson Development Corp. for 30 years and focuses primarily on acquisitions, dispositions, partnerships and leasing.

DEVELOPMENT

43. The Petitioners are constructing the Development at 2538 Birch Street, Vancouver, British Columbia, legally described as PID: 030-417-261, Lot 1 Block 353 District Lot 526 Group 1 New

Westminster District Plan EPP81033 (the "**Real Property**"). The Development is located at the Southeast corner of West Broadway and Birch Street, as shown here:

44. The Real Property is:

- (a) 0.43 acres or 18,762 square feet; and
- (b) zoned CD-1 (708), which calls for 22% of the residential portion of the building to be developed under the Moderate Income Rental Housing Program.

45. The Development is a single mixed-use tower consisting of 258 rental units, 58 of which are the MIRHPP Units. These residential units are atop a commercial podium with office and retail space (leasable area of 24,455 square feet) on the first three levels. There are five level of underground parking with 168 vehicle parking stalls plus storage lockers and bicycles parking.

46. The MIRHPP Units are below market rental units for moderate income households or individuals.

47. The following is a rendering of the completed Development:

Status of Construction

48. Beginning in Spring 2017, work commenced on assembling and re-zoning the Development site.

49. The Real Property was assembled from three lots in February 2017 and City of Vancouver designated the Real Property to be zoned CD-1 (708) effective as of July 24, 2018. This approval resulted in a density increase for the Development.

50. The Petitioners worked through the permitting process with the City of Vancouver, obtaining: rezoning enactment, development permit, demolition permit, excavation permit, structural permit, and full building permit.

51. The Petitioners have paid roughly \$4M to the City of Vancouver on account of permits, municipal fees and city engineering fees, as of November 2025, including payment on or about November 20, 2025. All necessary permits are in good standing with the City of Vancouver.

52. The Petitioners entered a construction contract with Metro-Can dated December 8, 2022 (the "**Construction Contract**"). Now shown to me and attached as **Exhibit "D"** is a copy of the Construction Contract.

53. By January 2023, the Petitioners had mobilized for construction of the Development and started excavation in February 2023. The Development is 91% complete, with an anticipated completion date of May 2026.

54. As of September 2025, the Development is seen as:

55. Many of the residential rental units are nearly complete, as shown in the following November 2025 photographs:

56. As noted above, the completion of construction of the Development is anticipated to be May 2026 (subject to necessary funding), which requires completion of:

- (a) commercial podium curtain wall glazing;
- (b) interior finishing of outstanding suites and corridors;
- (c) minor balcony glazing;
- (d) landscaping; and
- (e) parkade finishing (traffic coding and line painting).

57. Final city inspections are anticipated in early June 2026.

58. Due to the suspension of funding under the construction facility, since August 2025 Metro-Can has gradually reduced construction activity on site. Currently, the site is secured but there is no activity other than various site tours with potential purchasers and consultants.

59. Near the end of October 2025, Metro-Can's team informed the Petitioners that Metro-Can crews were leaving the site due to lack of payment and indicated that Metro-Can would recommence work when funding was available. The Petitioners have continued to keep Metro-Can informed as to the status of potential funding, and Metro-Can has indicated that crews can be remobilized to the Development within 10 days once funding is in place.

60. Although construction activities have ceased, Metro-Can remains responsible for monitoring and securing the Development site under the Construction Contract. To the best of my knowledge, the Development site continues to be monitored and remains secured. The

Petitioners will engage with Metro-Can immediately upon commencing this CCAA proceeding regarding site security and monitoring until the Comeback Hearing.

Costs to Complete

61. The Petitioners estimated costs to complete the Development are approximately \$20.3M. Now shown to me and attached as **Exhibit "E"** is copy of a cash-flow to completion of the Development (April 2026) detailing the costs to complete the Development (the "**Completion Cash-Flow**") along with tables detailing the costs to complete, specifically hard costs, soft costs, financing costs and contingencies (the "**Costs to Complete**").

62. The Costs to Complete are exclusive of professional fees for a CCAA proceeding.

63. Further, the Costs to Complete are calculated exclusive of amounts required to full fund the Holdback Account, defined and detailed below.

64. As noted above and detailed further below, the Petitioners have a commitment for funding in the amount of \$25,875,000 which is sufficient to fund the costs to complete the Development along with all costs associated with a CCAA proceeding. The Costs to Complete do not include the interest, charges and fees associated with this funding.

65. The Petitioners intend to seek approval of this funding, along with a Court-order priority charge at the Comeback Hearing.

CURRENT FINANCIAL CIRCUMSTANCES

Construction Financing

66. In or about February 2016, Gatland Capital Corporation was engaged to arrange construction financing for the Development.

67. The Petitioners are currently party to two credit agreements, providing Development financing.

68. BC Housing is currently the Petitioners' senior secured lender.

69. Under a loan commitment letter dated November 8, 2022 (the "**BC Housing Credit Agreement**") between the Petitioners, as borrowers, BC Housing, as lender; and various guarantors, BC Housing committed to provide a demand non-revolving credit facility up to a maximum principal amount of \$164,227,655 (the "**BC Housing Credit Facility**").

70. Pursuant to the BC Housing Credit Agreement, BC Housing has advanced approximately \$156.5M to the Petitioners as of August 2025. BC Housing has informed the Petitioners that there

is only \$150,000 available under the BC Housing Credit Facility once interest, loan fees and legal costs to discharge the loan and security are accounted for.

71. On or about September 19, 2025, BC Housing denied the Petitioners' draw request under the BC Housing Credit Agreement. At the time of the September draw request, BC Housing advised that \$8,102,312 of the loan facility would be held back for estimated interest, loan fees and legal costs to discharge the loan and security.

72. The Petitioners have continued to discuss options to complete the Development with BC Housing. On or about November 21, 2025, the Petitioners and its counsel had a meeting with BC Housing and its counsel to inform BC Housing that a CCAA proceeding was necessary given the current circumstances. The substance of the meeting was without prejudice so as to permit an open dialogue.

73. A loan facility was advanced to the Petitioners pursuant to a loan agreement dated for reference December 3, 2021 (the "**JHL Credit Agreement**") between the Petitioners, as borrowers, James Holdings Ltd., as lenders, and various guarantors.

74. Under the JHL Credit Agreement, James Holdings Ltd. has advanced a loan facility to the Petitioners (the "**JHL Credit Facility**"), under which the principal amount of approximately \$9M is currently claimed, together with interest and other amounts totalling another \$3.5M, for a total of approximately \$12.5M.

75. As noted above, James Holdings Ltd. is the majority limited partner of the LP and majority shareholder of the GP. I am a director of James Holdings Ltd. and as such I have personal knowledge of the matters herein deposed to, except where such facts are stated to be based upon information and belief and where so stated I do verily believe the same to be true.

76. The ability of James Holdings Ltd. to advance funds to the Petitioners was based primarily, either directly or indirectly, on separate financing from Portage Capital Corporation ("**Portage**") as well as an extension of a loan from Argo Ventures Inc. ("**Argo**").

77. Under a loan agreement dated November 1, 2020 (as amended, the "**Argo Credit Agreement**") between James Holdings Ltd. and others, as borrowers, Argo, as lender; and various guarantors, Argo agreed to loan \$5,350,000 to James Holdings Ltd. and others (the "**Argo Credit Facility**").

78. By loan modification agreement dated June 27, 2025, Argo agreed to extend the term of the Argo Credit Facility until September 30, 2026, on the condition that James Holdings Ltd. provide an irrevocable direction to pay to the Petitioners to pay the entire amount owing to Argo from the net sale proceeds following a sale of the Development. Now shown to me and attached

as **Exhibit "F"** is a copy of the loan modification agreement and irrevocable direction to pay dated July 3, 2025, from James Holdings Ltd. to 106 and the LP.

79. The Argo Credit Facility is secured by other projects held by James Holdings Ltd. and the ability of James Holdings Ltd. to repay the Argo Credit Facility is tied to repayment of the JHL Credit Facility by the Petitioners.

80. Under a commitment letter dated November 5, 2021 (as amended, the "**Portage Credit Agreement**") between 4354 Investments Ltd., 5186 Investments Ltd. and No. 198 Cathedral Ventures Ltd. as bare trustees and beneficial owners for James Holdings Ltd., as borrower, Portage, as lender, and James Holdings Ltd. as guarantor among others, Portage agreed to loan \$21,500,000 to 4354 Investments Ltd., 5186 Investments Ltd. and No. 198 Cathedral Ventures Ltd. as bare trustees and beneficial owners for James Holdings Ltd. (the "**Portage Credit Facility**"). Now shown to me and attached as **Exhibit "G"** is a copy of the Portage Credit Facility.

81. James Holdings Ltd. used some of the funds advanced under the Portage Credit Facility to advance the full principal of the JHL Credit Facility (\$9,008,748.91) to the Petitioners.

82. In consideration for Portage continuing to make the Portage Credit Facility available, James Holdings Ltd. provided an irrevocable direction to pay to the Petitioners to pay the entire amount owing to Portage from the net sale proceeds following a sale of the Development. Now shown to me and attached as **Exhibit "H"** is a copy of the undertaking and irrevocable direction to pay dated October 29, 2025, from James Holdings Ltd. to 106 and the LP, without schedules.

83. The ability of James Holdings Ltd. to service and repay the indebtedness to Argo and Portage is predicated on repayment of the JHL Credit Facility by the Petitioners. Further, James Holdings Ltd. is a creditor of the Petitioners and holds 75% of the equity of the Development. James Holdings Ltd. has a significant financial interest in the Development, and its operations and financial stability is intertwined with the Petitioners.

Need for Creditor Protection

84. Since BC Housing advised the Petitioners that no further advances would be forthcoming under the BC Housing Credit Facility, the GP worked to progress the Development by:

- (a) discussing further equity injections or loans from the limited partners, but this was not an option;
- (b) considering refinancing or a subordinate construction loan, neither of which were feasible in the circumstances;
- (c) negotiating with project proponents and stakeholders regarding terms of their existing agreements to address project economics;

- (d) negotiating with existing suppliers and contractors, including Metro-Can and lien claimants;
- (e) securing the Development site;
- (f) communicating project developments to all stakeholders, including creditors, contractors, suppliers, purchasers, the City of Vancouver; and
- (g) progress a sale of the Development (discussed in more detail below).

85. Ultimately, the planned restructuring as set out herein and eventual sale of the completed Development will provide the best outcome for stakeholders.

86. Beginning in early November 2025, liens were filed on the Real Property on behalf of Ozz Electric BC Inc. in the amount of \$1,512,227.63 and Metro-Can in the amount of \$15,877,120.00.

87. BC Housing has not issued formal demand under the BC Housing Credit Facility.

88. The Petitioners face the consequent need for protection from creditor action, in light of:

- (a) BC Housing suspending construction financing under the BC Housing Credit Facility;
- (b) the unavailability of further funding from other sources;
- (c) the series of builders' liens filed on title to the Real Property; and
- (d) negotiations addressing project economics with major stakeholders indicating relief under the CCAA is necessary to bring a restructuring transaction to fruition.

MARKETING AND POTENTIAL SALE OF THE DEVELOPMENT

Recent Marketing and Interest in the Development

89. In January 2024, the Petitioners engaged CBRE Limited Capital Markets ("**CBRE**") to assist with conducting a sale and investment solicitation process, seeking potential investors, partners or purchasers for the Development.

90. CBRE prepared extensive marketing materials for the Development.

91. Roughly 2,000 parties from the investment and development communities were targeted as part of a marketing campaign that was initiated on or about January 30, 2024. This marketing was re-launched on or about January 21, 2025.

92. CBRE received 45 completed confidentiality agreements and these parties were granted access to CBRE's only data room that contained relevant information with respect to the Development, 38 of these parties accessed the date room.

93. Throughout this process, the Petitioners both engaged with BC Housing and continued to advance the Development in the ordinary course.

94. This process resulted in progressing negotiations with an interested party that would have provided a loan to the LP of up to \$15 million for a 2-year term with an option to extend by 6 months at an interest rate of 12%, half to be accrued (compounded monthly) and the other half of the interest to be paid current on a monthly basis. The loan had a \$30,000 commitment fee. The interested party would have received an option to purchase the finished Development once 30% of the 258 residential units in the building were leased for a purchase price of land value and all-in construction costs plus 3% (or approximately \$217,300,000). The Petitioners would have been able to terminate the option to purchase by paying the interested party a break fee of \$1,000,000.

95. The above transaction would have required BC Housing to agree to the proposed loan and registration of the option to purchase on the Real Property given the terms of the Construction Loan to be registered.

96. Ultimately, this proposed transaction did not progress to a definitive agreement. Among other reasons, certain conditions could not be satisfied.

Current Agreement to Purchase the Development

97. The Petitioners marketed the Development with the assistance of CBRE and continue to engage in discussions with parties interested in the Development.

98. The Petitioners efforts in this regard have resulted in an Agreement of Purchase and Sale dated August 12, 2025 (as amended from time to time, the "**Purchase Agreement**"), between FPB Holdings Group Inc., as purchaser (the "**Purchaser**"), and 106 and LP, as vendors. Attached hereto and marked as **Exhibit "I"** are copies of Purchase Agreement and related amending agreement.

99. The Purchase Agreement represents an exciting opportunity that will:

- (a) see all creditors paid in full on closing;
- (b) retain all of the MIRHPP Units; and
- (c) support Indigenous and non-Indigenous medical care in British Columbia by providing outpatient lodging in Vancouver.

100. The Purchase Agreement would see the Development used to create a safe, culturally appropriate residential lodge for Indigenous members receiving long and short-term medical treatment in the Vancouver area, with accommodation provided at minimal cost to the patient and their First Nation. The concept is referred to as the “**Dunna’eh House of Healing**” and would be managed by the Dunna’eh House of Healing Society. Moreover and more recently, the concept has been expanded so that it can include accommodation for non-indigenous peoples from rural communities in BC and the Yukon.

101. BC Housing, the Province of British Columbia and the City of Vancouver are generally supportive of the Dunna’eh House of Healing.

102. The Dunna’eh House of Healing is also supported by the First Nations Health Authority (“**FNHA**”). Attached hereto and marked as **Exhibit “J”** is a copy of letter from FNHA to Dunna’eh House of Healing Society dated October 22, 2025.

103. The Purchase Agreement has been extended and amended on three occasions. Most recently, pursuant to the Third Extension and Amendment Agreement dated November 20, 2025, the Purchaser and the Petitioners agreed to amend the Purchaser Agreement to:

- (a) increase the purchase price by \$6M to \$235M;
- (b) increase the deposit by \$5M to \$25M, whereby the second deposit of \$19.98M will be paid concurrently with the Purchaser removing financing conditions and a third deposit of \$5M to be paid by January 30, 2026;
- (c) extend the Purchaser's financing condition waiver date from November 17, 2025 to December 19, 2025; and
- (d) incorporate some of the approved plans for the Petitioners’ work that is included in the Purchase Price.

104. The Purchaser paid the first deposit of \$20,000 under the Purchase Agreement on or about September 4, 2025.

105. The second deposit of \$19.98M and third deposit of \$5M would be immediately available to the Petitioners, subject to registration of an option to purchase against the Real Property.

Recovery Analysis under the Purchaser Agreement

106. At a high level, the purpose of a CCAA proceeding is to maintain the *status quo* and permit financing to complete the Development towards the aim of closing the Purchase Agreement and ultimately paying all creditors in full.

107. As noted above, the purchase price under the Purchase Agreement is \$235M. If closed, the Petitioners estimate there will be sufficient funds to pay all construction costs and all creditors in full (estimated to be \$204,320,854). In fact, there is \$29,029,145 in estimated equity, which is calculated as follows:

Purchase price:	\$235,000,000
Less commissions and legal fees to close	(\$1,650,000)
Less repayment of BC Housing:	(\$160,595,343)
Less Payment of all constructions costs and other buildings costs:	(\$29,875,512)
Less repayment of James Holdings Ltd.:	(\$13,412,298)
Less additional payments:	(\$437,701)
Net proceeds:	\$29,029,145

108. Attached hereto and marked as **Exhibit "K"** is copy of the Petitioners' draft sale proceeds analysis.

RECENT FINANCIAL STATEMENTS

109. Attached hereto and marked as **Exhibit "L"** are copies of the LP's unaudited 2024 financial statements (the "**LP 2024 Financial Statements**"). I have reviewed these materials and believe the information set out therein is accurate.

ASSETS

110. Largely, the LP's assets consist of cash, the Holdback Account, the Real Property and construction in progress.

111. From reviewing the LP's 2024 Financial Statements, I am aware that as of December 31, 2024, the LP's current and long-term assets totalled: \$137,506,789, consisting primarily of the Real Property and construction in progress totalling \$135,394,167.

112. As of the date of this affidavit, the LP currently has:

- (a) cash in the amount of \$1,188,552.66;
- (b) Holdback Account in the amount of \$488,951.41;

Property

113. 106 is the registered owner of the Real Property. The LP is the beneficial owner of the Real Property.

114. On or about September 23, 2025, Parkes & Company Ltd. ("**Parkes**") completed an appraisal of the Real Property (the "**Parkes Appraisal**").

115. The Parkes Appraisal indicates the current market value of the lands "as if complete" and "operating on a stabilized basis as market rents" is \$240,000,000. Now shown to me and attached as **Exhibit "M"** is a copy of the Parkes Appraisal.

116. The Real Property is encumbered by, among other charges, liens, a mortgage and assignments of rent, which are discussed in detail below.

Holdback Account

117. The Petitioners have a holdback account (the "**Holdback Account**") with a current balance of \$488,951.41.

118. The Petitioners are obligated to deposit 10% of each invoice under the Construction Contract into the Holdback Account.

119. As of November 21, 2025, the Holdback Account should have a balance of \$7,234,743.17, which amounts to an existing shortfall in the Holdback Account of \$6,745,791.76.

120. The Development has been under capitalized for quite some time. This has resulted in ongoing shortfalls and challenges for the Petitioners. As a result, at times, the Petitioners have redirected funds that should have been deposited to the Holdback Account or drawn funds out of the Holdback Account to address Development costs.

121. Any and all funds drawn from the construction loan were used for hard or soft costs (including professional fees and financing costs) for the Development. Generally speaking, the shortfall in the Holdback Account has been reconciled and is made up of the following:

- (a) the balance in the general operating/chequing account (less recent payments for professional and other fees);
- (b) interest payments on the Portage Credit Facility by James Holdings, which were funded by the Petitioners by way of interest payments on the JHL Credit Facility to the LP; and
- (c) approximately \$1M in relation City of Vancouver offsite works.

122. The Holdback Account is primarily for the benefit of Metro-Can.

123. The Petitioners have informed Metro-Can of the status of the Holdback Account and intend to engage in discussions prior to the Comeback Hearing to determine an approach that protects the interests of parties with claims against the Holdback Account and balancing this with the interests of all stakeholders. The Petitioners will seek any relief in this regard at the Comeback Hearing.

PARTNERS' CAPITAL

124. The LP 2024 Financial Statements list partners' capital as totalling \$3,200,101.

LIABILITIES

125. The LP's liabilities are comprised primarily of accounts payable and accrued liabilities, the BC Housing Credit Facility, the JHL Credit Facility and other minor related party contributions.

126. The LP's current and long-term liabilities as reported in the LP 2024 Financial Statements, consist of (numbers updated to be current):

- (a) accounts payable and accrued liabilities of \$15.2M;
- (b) \$156.5M in secured liabilities under the BC Housing Credit Facility; and
- (c) \$12.5M in liabilities under the JHL Credit Facility;

127. Demand has not been made under the BC Housing Credit Facility and the JHL Credit Facility; however these amounts are owing and the lenders are, absent a stay under the CCAA, entitled to demand. As described in more detail below, as of this date, \$15.2M of accounts payable and liabilities are due and owing.

Summary of Major Liabilities

128. In summary, the Petitioners' primary obligations are claimed approximately as follows:

Creditor	Principal and interest claimed
BC Housing	\$156,461,422 as at November 12, 2025
James Holdings Ltd.	\$12,527,298 as at November 30, 2025
Metro-Can	\$8,467,482 as at October 31, 2025, plus the Holdback Account deficiency of \$6,745,791.76 as at July 31, 2025

CREDIT FACILITIES

129. BC Housing holds security over the Real Property and security over the Petitioners' personal property.

BC Housing Credit Agreement

133. The BC Housing Credit Facility is secured by, among other things, a mortgage and assignment of rents in the principal amount of \$ over the Real Property, a beneficial direction and charge agreement, security agreements from the Petitioners and Guarantors and several share and unit pledge agreements.

134. As of October 2025, the principal amount owing to BC Housing under the BC Housing Credit Agreement was approximately \$156.5M. And as of September 19, 2025, BC Housing claims a further \$8,102,312 is required to cover estimated interest, loan fees and legal costs to discharge the loan and security under the BC Housing Credit Agreement.

JHL Credit Agreement

138. As of October 2025, the principal amount owing to James Holdings Ltd. under the JHL Credit Agreement was approximately \$9M. And as of November 30, 2025, James Holdings Ltd. claims approximately \$12.5M is owing to James Holdings Ltd. (inclusive of accrued interest but not fees and costs) under the JHL Credit Agreement.

Other Liabilities

139. As noted above, the LP has accounts payable and accrued liabilities of \$608,549 (exclusive of GST), these amounts related to unpaid constructions soft costs for consultants.

140. As of November 21, 2025, the following liens are registered on title to the Real Property:

	Lien Claimant	Amount	Date Filed	Registration No.
1.	Ozz Electric BC Inc. (naming Metro-Can as the person indebted to the lien claimant)	\$1,512,277.63	November 4, 2025	CB2435658
2.	Metro-Can (naming the LP as the person indebted to the lien claimant)	\$15,877,120.00	November 5, 2025	CB2436677

141. The property taxes for the Real Property are current.

KEY SUPPLIERS

Payables

142. I understand that as of November 24, 2025, the LP's accounts payable are \$7,858,934 (exclusive of GST) owing to Metro-Can and \$608,549 (exclusive of GST) for various construction soft costs, for a total of \$8,467,482.

143. I believe that some of the Petitioners' key suppliers and service providers are critical to the continued progress of the Development.

144. If granted CCAA protection, we intend to work with the Monitor (as defined herein) to identify those suppliers that are essential to construction of the Development.

145. Such suppliers, Metro-Can being the primary such supplier, will include those whose services will be critical to preserving the value of the Development and completing construction, including parties providing safety, security, and certain rental equipment. More specifically, these suppliers include:

- (a) Metro-Can, which as noted above is providing construction services; and
- (b) Construction soft costs including engineering and architectural services, environmental testing, among other things.

CCAA RELIEF AND THE INSOLVENCY OF THE PETITIONERS

146. The Petitioners are currently in a liquidity crisis, which has made it necessary for the Petitioners to pursue refinancing and restructuring efforts. This has also included progressing the Purchase Agreement.

147. The Petitioners' secured lender, BC Housing, has suspended further draws under the BC Housing Credit Agreement. BC Housing could demand on the BC Housing Credit Facility and potentially enforce its security, including a mortgage on the Real Property. The Development is not generating revenue. These factors have necessitated a restructuring of the Petitioners' affairs.

148. The directors of the GP have spent the past several months in discussions with key project proponents.

149. The GP, and counsel, have also continued to consult with key Development stakeholders, including BC Housing, Metro-Can and the City of Vancouver, on the path forward for the Development and the Petitioners' plans for restructuring within this CCAA proceeding.

150. The Petitioners have made every effort to resolve their financial challenges without CCAA proceedings. The Petitioners are now in a position to move forward, however it has become clear that completing the Development, completing the Purchase Agreement and repaying all creditors requires the relief provided by the CCAA.

151. The Petitioners are now seeking relief under the CCAA to preserve their operations, to prevent enforcement steps from being taken in respect of the Petitioners' secured creditor, lien claimants or other creditors, and to preserve the opportunity to complete the Development for the benefit of all stakeholders. The directors of the GP and 106 have years of experience with this particular project and decades of experience in property development, which can be capitalized on to move the Development to completion and maximize stakeholder recovery.

152. Through consultation with key project stakeholders, I believe that with the relief sought under the CCAA, the Petitioners will be able complete the Development by Spring 2026 and complete the Purchase Agreement, which would among other things, see BC Housing, Metro-Can, James Holdings Ltd. and all other creditors paid in full.

153. In consultation with the Proposed Monitor (as defined below) the Petitioners have developed the plan set out herein and have discussed this with BC Housing and have described the CCAA filing to Metro-Can. The Petitioners intend to continue to engage with BC Housing and Metro-Can over the coming days and in advance of the Comeback Hearing to ensure their concerns are considered.

Statutory Requirements of the CCAA

154. The Petitioners are entities to which the CCAA applies and have debts in excess of \$5,000,000.

155. As set out above, the Petitioners are in the midst of a liquidity crisis. They are insolvent on a cash flow basis and are unable to meet their obligations as they generally come due.

156. Alvarez & Marsal Canada Inc. (in this capacity, the “**Proposed Monitor**”) is prepared to act as Court-appointed monitor should an Initial Order be obtained.

157. In consultation with the Proposed Monitor, the Petitioners have prepared a 6-week cash flow statement (the “**Cash-Flow Statement**”) for the period ending December 26, 2026 (the “**Cash-Flow Statement Period**”). Now shown to me and attached as **Exhibit “P”** is a copy of the Cash-Flow Statement.

158. I have reviewed the Cash-Flow Statement with personnel from the Proposed Monitor and believe it is accurate. As evidenced by the Cash-Flow Statement, the Petitioners require approximately \$10.8M in order to meet their obligations through to the end of the Cash-Flow Statement period, being December 26, 2025, and importantly remobilize Metro-Can to recommence work on the Development. However, the Petitioners have sufficient liquidity until the Comeback Hearing.

Relief Requested

Stay of Proceedings

159. A stay of proceedings is essential to maintaining the *status quo* in order to preserve the value of the Petitioners’ business, while providing time for the Petitioners to complete the Development, with the oversight and assistance of the Proposed Monitor, and the eventual sale of the Development, which offers the greatest benefit to stakeholders.

160. Extending the stay of proceedings to James Holdings Ltd. will also help maintain stability and value during the CCAA process. James Holdings Ltd. is a creditor of the Petitioners, and in that capacity it will not receive payment during a CCAA proceeding. Further, James Holdings Ltd. will see a return on its equity position based on the information set out above. A stay of proceedings against James Holdings Ltd. will assist with preserving the status quo and allow the Petitioners and James Holdings Ltd. to focus on the completion and sale of the Development for the benefit of all stakeholders.

Interim Financing

161. The Petitioners intend to seek approval of interim financing at the Comeback Hearing.

162. It is anticipated that during the Cash-Flow Statement Period, the Petitioners will require financing in an amount of \$10,838,000. Moreover, funding in the amount of approximately \$25M is required to complete the Development and fund a CCAA proceeding. However, the Petitioners have sufficient liquidity until the Comeback Hearing.

163. Without interim financing, the Petitioners will not have sufficient cash on hand to continue operating, complete the Development and complete a sale.

164. In order to support completion of the Development and the Petitioners' restructuring efforts, Maynbridge Capital Inc. (the "**Interim Lender**") has agreed to provide an interim financing facility (the "**Interim Financing Facility**") during this CCAA proceeding pursuant to a term sheet between the Petitioners and the Interim Lender, dated November 21, 2025 (the "**Interim Financing Credit Agreement**"). Now shown to me and attached as **Exhibit "Q"** is a copy of the Interim Financing Credit Agreement.

165. It is a condition of the Interim Financing Credit Agreement that advances made to the Petitioners be secured by a court-ordered security interest, lien and charge over all the assets and undertakings of the Petitioners (the "**Interim Financing Charge**"), which will also be sought at the Comeback Hearing.

166. Given the Petitioners' urgent need for funding during a CCAA proceeding, in large part to pay essential creditors and contractors, the Petitioners believe that the Interim Financing Charge would be fair and reasonable in the circumstances.

167. The key financial terms of the Interim Financing Credit Agreement include:

- (a) Interim Financing Facility will be a non-revolving credit facility up to a maximum principal amount of \$25,875,000;
- (b) as noted above, security for repayment of the Interim Financing Facility will be, among other things, the Interim Financing Charge;
- (c) interest is 9.95%, calculated daily and payable monthly in arrears on the first business day of each month; and
- (d) a one-time fee of \$875,000, which is included in the maximum principal amount, will be payable to the Interim Lender on the date of the initial advance.

168. The initial advance, and closing date, under the Interim Financing Credit Agreement must be before December 19, 2025.

169. In addition to the above financial terms, the Interim Financing Credit Agreement provides for a maturity date that is the earlier of: (i) 8-months from the initial advance (August 2026); (ii)

the date on which the stay of proceedings in the CCAA is lifted without the consent of the Interim Lender or the CCAA proceeding is terminated for any reasons; (iii) the conversion of the CCAA proceeding into a proceeding under the *Bankruptcy and Insolvency Act* (Canada) or other applicable provincial statutes; (iv) ten days following written notice by the Interim Lender to the Petitioners of an Event of Default (as defined in the Interim Financing Credit Agreement).

170. Further, the Interim Financing Credit Agreement contains, among others, the following key provisions:

- (a) the Interim Financing Facility is to be used to fund professional fees and the outstanding and remaining building costs for the Development; and
- (b) certain conditions precedent to funding of the effectiveness of the Interim Financing Credit Agreement, including:
 - (i) the Petitioners obtaining a Court-order approving the Interim Financing Credit Agreement and certain court-ordered charges, including the Interim Financing Charge; and
 - (ii) payment of all fees owing to the Interim Lenders.

171. The Petitioners and their financial advisors have considered different financing options, and determined that the Interim Financing Credit Agreement is reasonable in the circumstances.

172. The Petitioners believe that such financing is necessary to fund their operations and conclude a restructuring that will benefit all stakeholders.

173. The Petitioners anticipate returning to Court for the Comeback Hearing to seek approval of the Interim Financing Credit Agreement and the Interim Financing Charge.

174. Notwithstanding the Interim Financing Credit Agreement, the Petitioners continue to engage with BC Housing regarding its willingness to act as interim lender and whether it can progress financial terms prior to the Comeback Hearing.

Administration Charge

175. The Petitioners' legal counsel, the Proposed Monitor and the Proposed Monitor's legal counsel are essential to the Petitioners' restructuring. They have each advised that they are prepared to continue to provide professional services to the Petitioners if they are protected by a charge over the assets, property and undertakings of the Petitioners in priority to all other charges.

176. An administration charge of \$250,000 (the "**Administration Charge**") is proposed to rank first in priority to all other encumbrances, including all other Court-ordered charges and the

security interests registered with respect to the BC Housing Credit Facility, among any other secured interests.

177. The Administration Charge will ensure that the Petitioners retain access to the professionals whose expertise and knowledge is required to pursue a successful restructuring under the CCAA. The Petitioners believe that the Administration Charge is necessary to ensure their important continued participation in this process, and is fair and reasonable in the circumstances.

Directors' Charge

178. The Petitioners are also seeking a charge in favour of the GP's and 106's directors, including myself, over the Petitioners' assets, property, and undertakings, in priority to all other charges other than the Administration Charge, up to a maximum of \$100,000 (the "**Directors' Charge**"), to indemnify the directors in respect of liabilities they may incur as directors of the Petitioners in these proceedings.

179. A successful restructuring of the Petitioners' affairs requires the continued participation of the GP's and 106's directors. These individuals have specialized expertise, decades of combined experience in this industry, and key relationships with the Petitioners' stakeholders. The directors have knowledge that cannot be easily replaced or replicated. The Petitioners therefore believe that the Directors' Charge is fair and reasonable in the circumstances.

180. The GP's and 106's directors, including myself, would like certainty with respect to potential personal liability if we continue in our current capacities for the benefit of the Petitioners' stakeholders during the CCAA proceeding, and will benefit from the Directors' Charge.

Priority Ranking of Charges.

181. The Petitioners propose that the charges they seek be secured against their assets, properties and undertaking ranking in priority as follows:

- (a) firstly, the Administration Charge; and
 - (b) secondly, the Directors' Charge
- (collectively, the "**Charges**").

182. The Interim Lender's Charge would rank behind the Administrative Charge and the Directors' Charge.

Payments During CCAA Proceedings

183. An inability to keep trade accounts current would prejudice the Petitioners' operations and threaten the value of the Development as well as project completion. Therefore, the Petitioners seek authorization, subject to review by the Proposed Monitor (once appointed as Monitor), to pay certain third party creditors for having supplied pre-filing goods and services in the ordinary course of the Petitioners' business, as reviewed and approved by the Proposed Monitor (once appointed as Monitor). The Petitioners should also be authorized to pay essential post-filing trade accounts.

184. Any such anticipated payments would relate completing the Development, which is the central pillar of this CCAA proceeding.

Position of Secured Creditors

185. This CCAA proceeding aim to see the indebtedness to BC Housing under the BC Housing Credit Agreement, along with all other creditors, paid out in full upon a successful sale of the Development.

186. The directors of the GP, and counsel, have consulted regularly with BC Housing on the Petitioners' refinancing and restructuring efforts, and more recently with BC Housing and their counsel regarding this CCAA proceeding and the Petitioners' proposal for restructuring.

187. I believe that the BC Housing will be generally supportive of the Petitioners' proposed CCAA filing and the Charges as proposed herein.

188. Metro-Can has been informed of the necessity of a CCAA filing and the Petitioners have, and will continue to, engage with Metro-Can on the relief being sought at the Comeback Hearing.

Monitor

189. I believe that the Proposed Monitor has acted as a monitor in this and other Canadian jurisdictions and is qualified and competent to act as a monitor in these proceedings. At no time in the past two years, has the Proposed Monitor or any of its partners or managers been any of the Petitioners' group auditor, accountant or employee.

190. The Petitioners have requested the Proposed Monitor serve as monitor in these proceedings (the "**Monitor**"), to provide court supervision and to generally assist the Petitioners with their restructuring efforts, and the Proposed Monitor has advised the Petitioners that it is willing to act as Monitor, if appointed. Now shown to me and attached as **Exhibit "R"** is a copy of the consent to act as monitor provided by the Proposed Monitor dated November 21, 2025.

CONCLUSION AND URGENCY

191. I swear this affidavit in support of the granting of an Initial Order for the Petitioners under the CCAA, including a stay of proceedings, for the purposes of providing the Petitioners with the opportunity to restructure their affairs.

192. The Petitioners require the relief sought on an urgent basis due to their liquidity challenges and inability to pay creditors, including lenders and suppliers, as well as the insolvency-related default provisions of their secured debt facilities.

193. Without the stay of proceedings and other relief provided by the CCAA, the Petitioners will not be able to repay the BC Housing Credit Facility or JHL Credit Facility, and complete a restructuring for the benefit of all stakeholders.

194. The Petitioners are seeking relief under the CCAA on short notice to preserve and stabilize their operations, to prevent enforcement steps from being taken in respect of their secured debt facility or liens, and to preserve the opportunity to restructure their business to offer the greatest benefit to numerous stakeholders.

- 6.3.11 Pending determination of the final amount of a *Change Directive*, the undisputed value of the *Work* performed as the result of a *Change Directive* is eligible to be included in progress payments.
- 6.3.12 If the *Owner* and the *Contractor* do not agree on the proposed adjustment in the *Contract Time* attributable to the change in the *Work*, or the method of determining it, the adjustment shall be referred to the *Consultant* for determination.
- 6.3.13 When the *Owner* and the *Contractor* reach agreement on the adjustment to the *Contract Price* and to the *Contract Time*, this agreement shall be recorded in a *Change Order*.

GC 6.4 CONCEALED OR UNKNOWN CONDITIONS

- 6.4.1 If the *Owner* or the *Contractor* discover conditions at the *Place of the Work* which are:
- .1 subsurface or otherwise concealed physical conditions which existed before the commencement of the *Work* which differ materially from those indicated in the *Contract Documents*; or
 - .2 physical conditions, other than conditions due to weather, that are of a nature which differ materially from those ordinarily found to exist and generally recognized as inherent in construction activities of the character provided for in the *Contract Documents*,
- then the observing party shall give *Notice in Writing* to the other party of such conditions before they are disturbed and in no event later than 5 *Working Days* after first observance of the conditions.
- 6.4.2 The *Consultant* will promptly investigate such conditions and make a finding. If the finding is that the conditions differ materially and this would cause an increase or decrease in the *Contractor's* cost or time to perform the *Work*, the *Consultant*, with the *Owner's* approval, will issue appropriate instructions for a change in the *Work* as provided in GC 6.2 - CHANGE ORDER or GC 6.3 - CHANGE DIRECTIVE.
- 6.4.3 If the *Consultant* finds that the conditions at the *Place of the Work* are not materially different or that no change in the *Contract Price* or the *Contract Time* is justified, the *Consultant* will report the reasons for this finding to the *Owner* and the *Contractor* in writing.
- 6.4.4 If such concealed or unknown conditions relate to toxic and hazardous substances and materials, artifacts and fossils, or mould, the parties will be governed by the provisions of GC 9.2 - TOXIC AND HAZARDOUS SUBSTANCES, GC 9.3 - ARTIFACTS AND FOSSILS and GC 9.5 - MOULD.

GC 6.5 DELAYS

- 6.5.1 If the *Contractor* is delayed in the performance of the *Work* by an action or omission of the *Owner*, *Consultant* or anyone employed or engaged by them directly or indirectly, contrary to the provisions of the *Contract Documents*, then the *Contract Time* shall be extended for such reasonable time as the *Consultant* may recommend in consultation with the *Contractor*. The *Contractor* shall be reimbursed by the *Owner* for reasonable costs incurred by the *Contractor* as the result of such delay.
- 6.5.2 If the *Contractor* is delayed in the performance of the *Work* by a stop work order issued by a court or other public authority and providing that such order was not issued as the result of an act or fault of the *Contractor* or any person employed or engaged by the *Contractor* directly or indirectly, then the *Contract Time* shall be extended for such reasonable time as the *Consultant* may recommend in consultation with the *Contractor*. The *Contractor* shall be reimbursed by the *Owner* for reasonable costs incurred by the *Contractor* as the result of such delay.

- 6.5.3 If the *Contractor* is delayed in the performance of the *Work* by:
- .1 labour disputes, strikes, lock-outs (including lock-outs decreed or recommended for its members by a recognized contractors' association, of which the *Contractor* is a member or to which the *Contractor* is otherwise bound),
 - .2 fire, unusual delay by common carriers or unavoidable casualties,
 - .3 abnormally adverse weather conditions, or
 - .4 any cause beyond the *Contractor's* control other than one resulting from a default or breach of *Contract* by the *Contractor*,
- then the *Contract Time* shall be extended for such reasonable time as the *Consultant* may recommend in consultation with the *Contractor*. The extension of time shall not be less than the time lost as the result of the event causing the delay, unless the *Contractor* agrees to a shorter extension. The *Contractor* shall not be entitled to payment for costs incurred by such delays unless such delays result from actions by the *Owner*, *Consultant* or anyone employed or engaged by them directly or indirectly.
- 6.5.4 No extension shall be made for delay unless *Notice in Writing* of the cause of delay is given to the *Consultant* not later than 10 *Working Days* after the commencement of the delay. In the case of a continuing cause of delay only one *Notice in Writing* shall be necessary.
- 6.5.5 If no schedule is made under paragraph 2.2.13 of GC 2.2 - ROLE OF THE CONSULTANT, then no request for extension shall be made because of failure of the *Consultant* to furnish instructions until 10 *Working Days* after demand for such instructions has been made.

GC 6.6 CLAIMS FOR A CHANGE IN CONTRACT PRICE

- 6.6.1 If the *Contractor* intends to make a claim for an increase to the *Contract Price*, or if the *Owner* intends to make a claim against the *Contractor* for a credit to the *Contract Price*, the party that intends to make the claim shall give timely *Notice in Writing* of intent to claim to the other party and to the *Consultant*.
- 6.6.2 Upon commencement of the event or series of events giving rise to a claim, the party intending to make the claim shall:
- .1 take all reasonable measures to mitigate any loss or expense which may be incurred as a result of such event or series of events, and
 - .2 keep such records as may be necessary to support the claim.
- 6.6.3 The party making the claim shall submit within a reasonable time to the *Consultant* a detailed account of the amount claimed and the grounds upon which the claim is based.
- 6.6.4 Where the event or series of events giving rise to the claim has a continuing effect, the detailed account submitted under paragraph 6.6.3 shall be considered to be an interim account and the party making the claim shall, at such intervals as the *Consultant* may reasonably require, submit further interim accounts giving the accumulated amount of the claim and any further grounds upon which it is based. The party making the claim shall submit a final account after the end of the effects resulting from the event or series of events.
- 6.6.5 The *Consultant's* findings, with respect to a claim made by either party, will be given by *Notice in Writing* to both parties within 30 *Working Days* after receipt of the claim by the *Consultant*, or within such other time period as may be agreed by the parties.
- 6.6.6 If such finding is not acceptable to either party, the claim shall be settled in accordance with Part 8 of the General Conditions - DISPUTE RESOLUTION.

PART 7 DEFAULT NOTICE

GC 7.1 OWNER'S RIGHT TO PERFORM THE WORK, TERMINATE THE CONTRACTOR'S RIGHT TO CONTINUE WITH THE WORK OR TERMINATE THE CONTRACT

- 7.1.1 If the *Contractor* is adjudged bankrupt, or makes a general assignment for the benefit of creditors because of the *Contractor's* insolvency, or if a receiver is appointed because of the *Contractor's* insolvency, the *Owner* may, without prejudice to any other right or remedy the *Owner* may have, terminate the *Contractor's* right to continue with the *Work*, by giving the *Contractor* or receiver or trustee in bankruptcy *Notice in Writing* to that effect.
- 7.1.2 If the *Contractor* neglects to prosecute the *Work* properly or otherwise fails to comply with the requirements of the *Contract* to a substantial degree and if the *Consultant* has given a written statement to the *Owner* and *Contractor* that sufficient cause exists to justify such action, the *Owner* may, without prejudice to any other right or remedy the *Owner* may have, give the *Contractor* *Notice in Writing* that the *Contractor* is in default of the *Contractor's* contractual obligations and instruct the *Contractor* to correct the default in the 5 *Working Days* immediately following the receipt of such *Notice in Writing*.

- 7.1.3 If the default cannot be corrected in the 5 *Working Days* specified or in such other time period as may be subsequently agreed in writing by the parties, the *Contractor* shall be in compliance with the *Owner's* instructions if the *Contractor*:
- .1 commences the correction of the default within the specified time, and
 - .2 provides the *Owner* with an acceptable schedule for such correction, and
 - .3 corrects the default in accordance with the *Contract* terms and with such schedule.
- 7.1.4 If the *Contractor* fails to correct the default in the time specified or in such other time period as may be subsequently agreed in writing by the parties, without prejudice to any other right or remedy the *Owner* may have, the *Owner* may:
- .1 correct such default and deduct the cost thereof from any payment then or thereafter due the *Contractor* provided the *Consultant* has certified such cost to the *Owner* and the *Contractor*, or
 - .2 terminate the *Contractor's* right to continue with the *Work* in whole or in part or terminate the *Contract*.
- 7.1.5 If the *Owner* terminates the *Contractor's* right to continue with the *Work* as provided in paragraphs 7.1.1 and 7.1.4, the *Owner* shall be entitled to:
- .1 take possession of the *Work* and *Products* at the *Place of the Work*; subject to the rights of third parties, utilize the *Construction Equipment* at the *Place of the Work*; finish the *Work* by whatever method the *Owner* may consider expedient, but without undue delay or expense, and
 - .2 withhold further payment to the *Contractor* until a final certificate for payment is issued, and
 - .3 charge the *Contractor* the amount by which the full cost of finishing the *Work* as certified by the *Consultant*, including compensation to the *Consultant* for the *Consultant's* additional services and a reasonable allowance as determined by the *Consultant* to cover the cost of corrections to work performed by the *Contractor* that may be required under GC 12.3 - WARRANTY, exceeds the unpaid balance of the *Contract Price*; however, if such cost of finishing the *Work* is less than the unpaid balance of the *Contract Price*, the *Owner* shall pay the *Contractor* the difference, and
 - .4 on expiry of the warranty period, charge the *Contractor* the amount by which the cost of corrections to the *Contractor's* work under GC 12.3 - WARRANTY exceeds the allowance provided for such corrections, or if the cost of such corrections is less than the allowance, pay the *Contractor* the difference.
- 7.1.6 The *Contractor's* obligation under the *Contract* as to quality, correction and warranty of the work performed by the *Contractor* up to the time of termination shall continue after such termination of the *Contract*.

GC 7.2 CONTRACTOR'S RIGHT TO SUSPEND THE WORK OR TERMINATE THE CONTRACT

- 7.2.1 If the *Owner* is adjudged bankrupt, or makes a general assignment for the benefit of creditors because of the *Owner's* insolvency, or if a receiver is appointed because of the *Owner's* insolvency, the *Contractor* may, without prejudice to any other right or remedy the *Contractor* may have, terminate the *Contract* by giving the *Owner* or receiver or trustee in bankruptcy *Notice in Writing* to that effect.
- 7.2.2 If the *Work* is suspended or otherwise delayed for a period of 20 *Working Days* or more under an order of a court or other public authority and providing that such order was not issued as the result of an act or fault of the *Contractor* or of anyone directly or indirectly employed or engaged by the *Contractor*, the *Contractor* may, without prejudice to any other right or remedy the *Contractor* may have, terminate the *Contract* by giving the *Owner* *Notice in Writing* to that effect.
- 7.2.3 The *Contractor* may give *Notice in Writing* to the *Owner*, with a copy to the *Consultant*, that the *Owner* is in default of the *Owner's* contractual obligations if:
- .1 the *Owner* fails to furnish, when so requested by the *Contractor*, reasonable evidence that financial arrangements have been made to fulfill the *Owner's* obligations under the *Contract*, or
 - .2 the *Consultant* fails to issue a certificate as provided in GC 5.3 - PROGRESS PAYMENT, or
 - .3 the *Owner* fails to pay the *Contractor* when due the amounts certified by the *Consultant* or awarded by arbitration or court, or
 - .4 the *Owner* violates the requirements of the *Contract* to a substantial degree and the *Consultant*, except for GC 5.1 - FINANCING INFORMATION REQUIRED OF THE OWNER, confirms by written statement to the *Contractor* that sufficient cause exists.
- 7.2.4 The *Contractor's* *Notice in Writing* to the *Owner* provided under paragraph 7.2.3 shall advise that if the default is not corrected within 5 *Working Days* following the receipt of the *Notice in Writing*, the *Contractor* may, without prejudice to any other right or remedy the *Contractor* may have, suspend the *Work* or terminate the *Contract*.
- 7.2.5 If the *Contractor* terminates the *Contract* under the conditions set out above, the *Contractor* shall be entitled to be paid for all work performed including reasonable profit, for loss sustained upon *Products* and *Construction Equipment*, and such other damages as the *Contractor* may have sustained as a result of the termination of the *Contract*.

PART 8 DISPUTE RESOLUTION

GC 8.1 AUTHORITY OF THE CONSULTANT

- 8.1.1 Differences between the parties to the *Contract* as to the interpretation, application or administration of the *Contract* or any failure to agree where agreement between the parties is called for, herein collectively called disputes, which are not resolved in the first instance by findings of the *Consultant* as provided in GC 2.2 - ROLE OF THE CONSULTANT, shall be settled in accordance with the requirements of Part 8 of the General Conditions - DISPUTE RESOLUTION.
- 8.1.2 If a dispute arises under the *Contract* in respect of a matter in which the *Consultant* has no authority under the *Contract* to make a finding, the procedures set out in paragraph 8.1.3 and paragraphs 8.2.3 to 8.2.8 of GC 8.2 - NEGOTIATION, MEDIATION AND ARBITRATION, and in GC 8.3 - RETENTION OF RIGHTS apply to that dispute with the necessary changes to detail as may be required.
- 8.1.3 If a dispute is not resolved promptly, the *Consultant* will give such instructions as in the *Consultant's* opinion are necessary for the proper performance of the *Work* and to prevent delays pending settlement of the dispute. The parties shall act immediately according to such instructions, it being understood that by so doing neither party will jeopardize any claim the party may have. If it is subsequently determined that such instructions were in error or at variance with the *Contract Documents*, the *Owner* shall pay the *Contractor* costs incurred by the *Contractor* in carrying out such instructions which the *Contractor* was required to do beyond what the *Contract Documents* correctly understood and interpreted would have required, including costs resulting from interruption of the *Work*.

GC 8.2 NEGOTIATION, MEDIATION AND ARBITRATION

- 8.2.1 In accordance with the Rules for Mediation of Construction Disputes as provided in CCDC 40 in effect at the time of bid closing, the parties shall appoint a Project Mediator
 - .1 within 20 *Working Days* after the *Contract* was awarded, or
 - .2 if the parties neglected to make an appointment within the 20 *Working Days*, within 10 *Working Days* after either party by *Notice in Writing* requests that the Project Mediator be appointed.
- 8.2.2 A party shall be conclusively deemed to have accepted a finding of the *Consultant* under GC 2.2 - ROLE OF THE CONSULTANT and to have expressly waived and released the other party from any claims in respect of the particular matter dealt with in that finding unless, within 15 *Working Days* after receipt of that finding, the party sends a *Notice in Writing* of dispute to the other party and to the *Consultant*, which contains the particulars of the matter in dispute and the relevant provisions of the *Contract Documents*. The responding party shall send a *Notice in Writing* of reply to the dispute within 10 *Working Days* after receipt of such *Notice in Writing* setting out particulars of this response and any relevant provisions of the *Contract Documents*.
- 8.2.3 The parties shall make all reasonable efforts to resolve their dispute by amicable negotiations and agree to provide, without prejudice, frank, candid and timely disclosure of relevant facts, information and documents to facilitate these negotiations.
- 8.2.4 After a period of 10 *Working Days* following receipt of a responding party's *Notice in Writing* of reply under paragraph 8.2.2, the parties shall request the Project Mediator to assist the parties to reach agreement on any unresolved dispute. The mediated negotiations shall be conducted in accordance with the Rules for Mediation of Construction Disputes as provided in CCDC 40 in effect at the time of bid closing.
- 8.2.5 If the dispute has not been resolved within 10 *Working Days* after the Project Mediator was requested under paragraph 8.2.4 or within such further period agreed by the parties, the Project Mediator shall terminate the mediated negotiations by giving *Notice in Writing* to the *Owner*, the *Contractor* and the *Consultant*.
- 8.2.6 By giving a *Notice in Writing* to the other party and the *Consultant*, not later than 10 *Working Days* after the date of termination of the mediated negotiations under paragraph 8.2.5, either party may refer the dispute to be finally resolved by arbitration under the Rules for Arbitration of Construction Disputes as provided in CCDC 40 in effect at the time of bid closing. The arbitration shall be conducted in the jurisdiction of the *Place of the Work*.
- 8.2.7 On expiration of the 10 *Working Days*, the arbitration agreement under paragraph 8.2.6 is not binding on the parties and, if a *Notice in Writing* is not given under paragraph 8.2.6 within the required time, the parties may refer the unresolved dispute to the courts or to any other form of dispute resolution, including arbitration, which they have agreed to use.

- 8.2.8 If neither party, by *Notice in Writing*, given within 10 *Working Days* of the date of *Notice in Writing* requesting arbitration in paragraph 8.2.6, requires that a dispute be arbitrated immediately, all disputes referred to arbitration as provided in paragraph 8.2.6 shall be
- .1 held in abeyance until
 - (1) *Substantial Performance of the Work*,
 - (2) the *Contract* has been terminated, or
 - (3) the *Contractor* has abandoned the *Work*,
 whichever is earlier; and
 - .2 consolidated into a single arbitration under the rules governing the arbitration under paragraph 8.2.6.

GC 8.3 RETENTION OF RIGHTS

- 8.3.1 It is agreed that no act by either party shall be construed as a renunciation or waiver of any rights or recourses, provided the party has given the *Notice in Writing* required under Part 8 of the General Conditions - DISPUTE RESOLUTION and has carried out the instructions as provided in paragraph 8.1.3 of GC 8.1 – AUTHORITY OF THE CONSULTANT.
- 8.3.2 Nothing in Part 8 of the General Conditions - DISPUTE RESOLUTION shall be construed in any way to limit a party from asserting any statutory right to a lien under applicable lien legislation of the jurisdiction of the *Place of the Work* and the assertion of such right by initiating judicial proceedings is not to be construed as a waiver of any right that party may have under paragraph 8.2.6 of GC 8.2 – NEGOTIATION, MEDIATION AND ARBITRATION to proceed by way of arbitration to adjudicate the merits of the claim upon which such a lien is based.

PART 9 PROTECTION OF PERSONS AND PROPERTY

GC 9.1 PROTECTION OF WORK AND PROPERTY

- 9.1.1 The *Contractor* shall protect the *Work* and the *Owner's* property and property adjacent to the *Place of the Work* from damage which may arise as the result of the *Contractor's* operations under the *Contract*, and shall be responsible for such damage, except damage which occurs as the result of:

 - .2 provide the *Consultant* and the *Contractor* with a written list of any such substances that are known to exist and their locations.
- 9.2.3 The *Owner* shall take all reasonable steps to ensure that no person's exposure to any toxic or hazardous substances exceeds the time weighted levels prescribed by applicable legislation at the *Place of the Work* and that no property is damaged or destroyed as a result of exposure to, or the presence of, toxic or hazardous substances which were at the *Place of the Work* prior to the *Contractor* commencing the *Work*.
- 9.2.4 Unless the *Contract* expressly provides otherwise, the *Owner* shall be responsible for taking all necessary steps, in accordance with applicable legislation in force at the *Place of the Work*, to dispose of, store or otherwise render harmless toxic or hazardous substances which were present at the *Place of the Work* prior to the *Contractor* commencing the *Work*.

- 9.2.5 If the *Contractor*
- .1 encounters toxic or hazardous substances at the *Place of the Work*, or
 - .2 has reasonable grounds to believe that toxic or hazardous substances are present at the *Place of the Work*, which were not brought to the *Place of the Work* by the *Contractor* or anyone for whom the *Contractor* is responsible and which were not disclosed by the *Owner* or which were disclosed but have not been dealt with as required under paragraph 9.2.4, the *Contractor* shall
 - .3 take all reasonable steps, including stopping the *Work*, to ensure that no person's exposure to any toxic or hazardous substances exceeds any applicable time weighted levels prescribed by applicable legislation at the *Place of the Work*, and
 - .4 immediately report the circumstances to the *Consultant* and the *Owner* in writing.
- 9.2.6 If the *Owner* and *Contractor* do not agree on the existence, significance of, or whether the toxic or hazardous substances were brought onto the *Place of the Work* by the *Contractor* or anyone for whom the *Contractor* is responsible, the *Owner* shall retain and pay for an independent qualified expert to investigate and determine such matters. The expert's report shall be delivered to the *Owner* and the *Contractor*.
- 9.2.7 If the *Owner* and *Contractor* agree or if the expert referred to in paragraph 9.2.6 determines that the toxic or hazardous substances were not brought onto the place of the *Work* by the *Contractor* or anyone for whom the *Contractor* is responsible, the *Owner* shall promptly at the *Owner's* own expense:
- .1 take all steps as required under paragraph 9.2.4;
 - .2 reimburse the *Contractor* for the costs of all steps taken pursuant to paragraph 9.2.5;
 - .3 extend the *Contract* time for such reasonable time as the *Consultant* may recommend in consultation with the *Contractor* and the expert referred to in 9.2.6 and reimburse the *Contractor* for reasonable costs incurred as a result of the delay; and
 - .4 indemnify the *Contractor* as required by GC 12.1 - INDEMNIFICATION.

If such disagreement is not resolved promptly, the parties shall act immediately in accordance with the expert's determination and take the steps required by paragraph 9.2.7 or 9.2.8 it being understood that by so doing, neither party will jeopardize any claim that party may have to be reimbursed as provided by GC 9.2 - TOXIC AND HAZARDOUS SUBSTANCES.

GC 9.3 ARTIFACTS AND FOSSILS

- 9.3.1 Fossils, coins, articles of value or antiquity, structures and other remains or things of scientific or historic interest discovered at the *Place or Work* shall, as between the *Owner* and the *Contractor*, be deemed to be the absolute property of the *Owner*.
- 9.3.2 The *Contractor* shall take all reasonable precautions to prevent removal or damage to discoveries as identified in paragraph 9.3.1, and shall advise the *Consultant* upon discovery of such items.
- 9.3.3 The *Consultant* will investigate the impact on the *Work* of the discoveries identified in paragraph 9.3.1. If conditions are found that would cause an increase or decrease in the *Contractor's* cost or time to perform the *Work*, the *Consultant*, with the *Owner's* approval, will issue appropriate instructions for a change in the *Work* as provided in GC 6.2 - CHANGE ORDER or GC 6.3 CHANGE DIRECTIVE.

GC 9.5 MOULD

- 9.5.1 If the *Contractor* or *Owner* observes or reasonably suspects the presence of mould at the *Place of the Work*, the remediation of which is not expressly part of the *Work*,
- .1 the observing party shall promptly report the circumstances to the other party in writing, and
 - .2 the *Contractor* shall promptly take all reasonable steps, including stopping the *Work* if necessary, to ensure that no person suffers injury, sickness or death and that no property is damaged as a result of exposure to or the presence of the mould, and
 - .3 if the *Owner* and *Contractor* do not agree on the existence, significance or cause of the mould or as to what steps need be taken to deal with it, the *Owner* shall retain and pay for an independent qualified expert to investigate and determine such matters. The expert's report shall be delivered to the *Owner* and *Contractor*.
- 9.5.2 If the *Owner* and *Contractor* agree, or if the expert referred to in paragraph 9.5.1.3 determines that the presence of mould was caused by the *Contractor*'s operations under the *Contract*, the *Contractor* shall promptly, at the *Contractor*'s own expense:
- .1 take all reasonable and necessary steps to safely remediate or dispose of the mould, and
 - .2 make good any damage to the *Work*, the *Owner*'s property or property adjacent to the *Place of the Work* as provided in paragraph 9.1.3 of GC 9.1 - PROTECTION OF WORK AND PROPERTY, and

 - .4 indemnify the *Owner* as required by GC 12.1 - INDEMNIFICATION.
- 9.5.3 If the *Owner* and *Contractor* agree, or if the expert referred to in paragraph 9.5.1.3 determines that the presence of mould was not caused by the *Contractor*'s operations under the *Contract*, the *Owner* shall promptly, at the *Owner*'s own expense:
- .1 take all reasonable and necessary steps to safely remediate or dispose of the mould, and
 - .2 reimburse the *Contractor* for the cost of taking the steps under paragraph 9.5.1.2 and making good any damage to the *Work* as provided in paragraph 9.1.4 of GC 9.1 - PROTECTION OF WORK AND PROPERTY, and

RE: 2538 Birch Street, Vancouver, BC

Dear Tom,

As requested, we have reviewed the latest drawings for your proposed project at 2538 Birch Street in Vancouver and are providing a budget price estimate.

Project Summary:

A 28-storey residential concrete building with 258 residential units, 1 level of CRU units, 1 level of office space and 5 levels of underground parkade.

TEA (Total Enclosed Area):	211,757 ft ²
Parkade Area:	97,782 ft ²

This estimate is based on the enclosed list of drawings and documents as per APPENDIX B (enclosed). We have included Appendix A – Scope of Work with this letter that provides more details on the project specific inclusion, exclusions, and assumptions made.

Contractor's Assumptions:

1. The form of contract will be a CCDC 2 – Stipulated Price Contract with mutually agreed Supplementary General Conditions.
2. The general extent of Metro-Can's scope of work includes all construction work inside the new property lines.
3. No "Offsite Work" beyond the property line is included in our estimate; however, Metro-Can can provide a quotation to coordinate and manage the Offsite Work under a separate contract or Change Order if required.
4. The Owner will demolish all structures at the place of work if required.
5. Permits will be obtained by the Owner.
6. The project will be constructed as 1 phase only.
7. The Owner will obtain all necessary air rights and encroachment agreements with neighbours.
8. The Owner will arrange for surveys of the condition of neighbouring buildings and will arrange for the monitoring of such buildings during the performance of the work. The Contractor will coordinate the work of the surveyor.
9. A full building permit will be provided in a timely manner and complete "Issued for Construction" documents will be required for work to proceed continuously.
10. The Owner will be responsible for consultant fees, building and development permits and fees, city assessments, shoring bonds or fees, miscellaneous fees or deposits, permanent service, and utility connection fees.

11. The below grade structure has been assumed as typical parkade construction with shoring anchors. No IBO anchors have been allowed for.
12. Site is assumed to be free of contaminated and odorous soil. No cost has been carried for contaminated materials.
13. Due to the lack of documents, several cash allowances have been allocated to portions of the work.
14. ID specifications for Broadway and Commercial have been used as guidelines for the finishes on this project.

We estimate the Construction cost for the project to be **\$87,354,443** excluding GST. Based on the aforementioned project statistics this would equate to costs of **\$412.52/ft²** based on Total TEA. A full review of the final IFC drawings and specifications will be required when available.

We estimate a construction schedule of **32 months** from start of excavation to substantial performance of the work.

We look forward to meeting with you to review our submission.

Best regards,

METRO-CAN CONSTRUCTION (BB) LTD.

It is understood that it is a condition of the initial advance of the Loan that the Property complies with all Planning Act provisions and governmental and regulatory authorities and there shall be no other work orders or notices of deficiencies whatsoever against the Property.
- 4) REAL PROPERTY REPORT:

To the extent required for the Lender to obtain satisfactory title Insurance coverage or if otherwise required by the Lender or its solicitor, a survey/real property report prepared by a registered land surveyor approved by the Lender with respect to the Property is to be furnished to the Lender if available.

Such report is to be satisfactory to the Lender and, without limiting the generality of the foregoing, is to show:

 - (a) the boundaries and dimensions of the land(s);
 - (b) the location of the building(s) and any other improvements on the land(s);
 - (c) the names and municipal block numbers of adjacent streets;
 - (d) location of all registered easements, rights-of-way, etc.
- 5) SOLICITORS:

The law firm to be appointed by the Lender shall be used to draw the Security documentation and any other documents related to this transaction and to disburse advances, and all investigations and registrations shall be to the satisfaction of our solicitor prior to any advance. All legal costs of our solicitors related to this transaction shall be payable by you and may be deducted from the Loan proceeds and shall be paid by you directly to our solicitors in the event this transaction does not proceed to an initial funding under the Mortgage.

The Lender will require that the Borrower use a firm of solicitors for independent legal advice, such firm to be completely separate from that chosen by the Lender.

Notwithstanding the generality of the foregoing, our solicitors shall be furnished with such affidavits, financial statements, estoppel certificates for commercial tenants, acknowledgements, directions, and other information in regard to the Property, indicating full compliance with all the representations and conditions as provided herein and as either the Lender and/or its solicitors shall request.

6) SOLICITOR'S
OPINION:

The Lender shall be provided with an opinion letter from a satisfactory solicitor from the appropriate jurisdiction acting for the Obligor stating that all Security documentation has been duly authorized, executed and delivered by the respective Obligor, that all of the Security is validly binding on the respective Obligor, that the said Security does not breach any other agreements or security instruments to which the Obligor are parties. The opinion letter shall be in such form and contain such other terms as may be required by the Lender or its solicitors.

7) DEFAULT ON
ABANDONMENT:

In the event of abandonment of the Property for a period in excess of fifteen (15) consecutive days, the Lender shall be entitled, after giving the Borrower ten (10) days written notice of any abandonment and provided the Borrower fails to rectify same within the time allotted or within fifteen (15) days after such notice has been given, to forthwith withdraw and cancel its obligations hereunder and/or decline to advance further funds as the case may be and in addition to declare any funds advanced to forthwith become due and payable plus interest all at the Lender's option.

8) BORROWER'S
REPRESENTATIONS:

If, at any time before the final advance of funds, the Lender determines that there is or has been any material discrepancy or inaccuracy in any written information, statements or representations at any time made or furnished to the Lender by the Borrower concerning the Property or any party's financial condition and responsibility, then the Lender shall, if such material discrepancy or inaccuracy cannot be rectified or nullified by you within thirty (30) days of written notification from the Lender, be entitled forthwith to withdraw and cancel its obligations hereunder or decline to advance further funds, as the case may be, and to declare any monies then advanced, with interest, to be forthwith due and payable.

9) MATERIAL
CHANGE:

It is a condition for the disbursement of funds that, in the opinion of the Lender, the financial position of the Obligor and the Property, and the Obligor's representations and warranties, shall not have suffered any adverse change; nor shall there be any actions, suits, or pending proceedings of which any Obligor has knowledge; and that no event shall have occurred which materially and adversely affects the value of the Property or any part thereof, or the financial position of any of the Obligor or their shareholders or partners.

11) NON-MERGER:

The Obligor's obligations as contained in this Commitment (and to the extent that those obligations are not repeated in the Mortgage and other Security) shall survive the execution and registration of the Mortgage and other Security documentation and all advances of funds under the Mortgage, and the Borrower agrees that those obligations shall not be deemed to be merged in the execution and registration of the Mortgage and other Security. All terms and conditions of the Mortgage and other Security documentation shall be deemed to be incorporated in and form part of this Commitment, except to the extent provided for in this Commitment. In the event of conflict, the terms of Commitment shall prevail.

12) WAIVER:

The Lender's failure to insist upon a strict performance of any obligation or covenant of this Commitment or the Security by an Obligor or to exercise any option or right herein shall not be a waiver, or relinquishment for the future of such obligation or covenant, option or right, but the same shall remain in full force and effect and the Lender shall have the right to insist upon the strict performance by the Obligor of any and all of the terms and provisions of this Commitment and the Security.

13) MORTGAGE
REGISTRATION:

It is understood, however, that neither the preparation nor the registration of any of the documents contemplated herein shall bind the Lender to advance the Loan or any un-advanced portion thereof, it being agreed that the advance of the Loan or any part thereof from time to time shall be in the sole, absolute, unfettered, and unqualified discretion of the Lender.

14) INTERPRETATION
OF CONTRACT:

This agreement shall be interpreted in accordance with the laws of Ontario and shall be treated in all respects as an Ontario contract.

Either party may designate in writing a substitute address for that set forth above, and thereafter notice shall be directed to such substituted address. In the event of a postal strike, or in the event of interruption of mail service then all notices must be delivered to the address set out, or such other address as may have been designated.

17) ENVIRONMENTAL
MATTERS:

The Loan will contain a warranty and representation, in form satisfactory to the Lender, that, to the knowledge of the Borrowers, the Property and its existing prior uses comply and have at all times complied with all laws, regulations, orders and approvals of all governmental authorities having jurisdiction with respect to environmental matters applicable to the ownership, use, maintenance, and operation of the Property (collectively, the "Environmental Laws") and, without limiting the generality of the foregoing:

For the purposes of this Commitment, a "Hazardous Substance" includes but is not limited to contaminants, pollutants, dangerous substances, gasoline, oil, liquid wastes, industrial wastes, whole liquid wastes, toxic substances, hazardous wastes, hazardous materials, and Hazardous Substances as defined in or pursuant to the Environmental Management Act or any applicable Environmental Law.

It shall be an event of default under the Loan if any of the foregoing representations and warranties shall be false or misleading as at the time given.

18) SUCCESSORS AND
ASSIGNS:

This Commitment shall, subject to the provisions herein, enure to the benefit of, and be binding upon the Lender, the Obligors and their respective successors, administrators, benefactors, heirs and permitted assigns.

19) CONDITIONS:

All conditions to the obligation of the Lender to make advances of the Loan are imposed solely and exclusively for the benefit of the Lender and any or all of such conditions may be waived in whole or in part by the Lender at any time in its sole discretion if it deems it advisable to do so. This right is not to be unreasonably exercised by the Lender.

No single advance, either singularly or collectively, shall constitute a waiver of any of the Borrower's obligations nor obligate the Lender to make further advances.

20) ACKNOWLEDGEMENT:

The Borrower acknowledges and agrees that the Lender may have entered into this Commitment to provide mortgage origination and/or administration services on behalf of an investor and not on its behalf. If applicable, any requirement to advance funds or to perform any obligation under this Commitment or any of the Security documents required hereunder shall be strictly those of the investor and not of the Lender and the Borrower hereby releases the Lender from any alleged breach which may occur hereunder or thereunder.

The Borrower hereby acknowledges that the Lender, acting as agent on behalf of an investor client, and any assignee or party to whom this Loan is syndicated is acting as a lender only and the Lender has not presented the commercial viability of the Property, nor the cash flow therefrom, nor any other representation, whether verbal or written. The Borrower further acknowledges that it has made its own independent analysis of the Property and is satisfied with same.

21) AMENDMENTS TO
COMMITMENT:

This Commitment shall supersede any and all prior dealing, whether written or oral, as between the parties hereto and relating to this Loan. No term or requirement of this Commitment or any Security documents may be waived or varied orally or by any course of conduct of any office, employee, or agent of the Lender. Any amendments to this Commitment or any Security document must be in writing and signed by a duly authorized officer of the Lender.

22) TIME OF ESSENCE:

Time shall be of the essence in all respects in this Commitment.

23) GENDER/NUMBER:

It is hereby agreed, wherever the singular and the masculine are used throughout this Commitment, the same shall be construed as meaning the plural, or the feminine or neuter where the context or the parties so require.

24) TITLE INSURANCE:

The Borrower shall obtain title insurance for the Property in favour of the Lender in a form and policy, and from a title insurer, satisfactory to the Lender.

25) OTHER:

In the event of any default, that continues beyond the reasonable cure period, the Lender shall be entitled to a fee for each and every incident of default on account of administration and costs incurred: (a) Late payment - \$500.00; (b)

dishonored cheque or other payment - \$1,000.00; (c) any legal proceeding instituted - \$5,000.00, in each case plus all legal fees and disbursements other costs incurred.

26) IDENTIFICATION:

Each Borrower will be required to produce identification acceptable to the Lender and the Lender's solicitor at the time the mortgage documentation is signed, and prior to any funds being advanced, for the purpose of compliance with the provisions of the *Proceeds Of Crime (Money Laundering) and Terrorist Financing Act* (Canada) and regulations thereunder. Such identification shall include at least two documents, with at least one document including photo ID, together with a solicitor's confirmation that the identity of all persons signing as or on behalf of the Borrower have been identified as the proper persons to sign. The Lender is to be provided with copies (front and back) of any identification documents together with a solicitor's certification that the copies are true copies of the original documents.

27) INSOLVENCY:

In the event one or more of the principals of an Obligor become insolvent or file for bankruptcy then at the option of the Lender the Mortgage will become due and payable.

28) ASSIGNMENT, SALE

This Loan may be assigned by the Lender without the consent of the Obligors. The Loan terms, representations, warranties, and covenants herein contained shall enure to the benefit of each assignee of the Lender. 15. Closing Procedure

Unless otherwise agreed between the Purchaser's Solicitors and the Vendor Solicitors, each acting reasonably:

- (a) All documents and monies required for Closing will be deposited into escrow with the Purchaser's Solicitors on or prior to the Closing Date, and, save for any documents requiring registration in the LTO, will not be released from escrow until the net sale proceeds have been paid to the Vendor's Solicitors in trust in accordance with this Section 15. The Parties shall authorize the Purchaser's Solicitors to release such documents for the purpose of registration, as aforesaid, provided that the Purchaser's Solicitors has first confirmed receipt of the monies set forth in Section 14(d)(i).
- (b) If the Purchaser is relying upon a new mortgage to finance the Purchase Price, the Purchaser, while still required to pay the Purchase Price on the Closing Date, may wait to pay the Purchase Price to the Vendor until after the transfer and new mortgage documents have been lodged for registration in the LTO, but only if, before such lodging, the Purchaser has: (a) made available for tender to the Vendor that portion of the Purchase Price not secured by the new mortgage, and (b) fulfilled all of the new mortgagee's conditions for funding except lodging the mortgage for registration, and (c) made available to the Vendor, a lawyer's undertaking to pay the Purchase Price upon the lodging of the transfer and new mortgage documents and the advance by the mortgagee of the mortgage proceeds pursuant to the Canadian Bar Association (BC Branch) (Real Property Section) standard undertakings (the "**CBA Standard Undertakings**") or other undertakings agreed to between the Purchaser and Vendor's Solicitors, acting reasonably.
- (c) When all documents and monies required for Closing have been deposited in escrow, the Purchaser's Solicitors will submit the Form A Transfer and will arrange for submission of the Purchaser's mortgage, if any, for registration in the LTO.
- (d) The Purchaser's Solicitors will disburse funds in accordance with the Statement of Adjustments as approved by the Vendor or otherwise as agreed with the Vendor's Solicitors and will release the Closing documents to the parties upon:
 - (i) a satisfactory post-submission search of the LTO has been received showing that title to the Lands will be registered in the name of the Purchaser and subject only to the Purchaser's mortgage, if any, the Permitted Encumbrances and any other encumbrances to be discharged

by the Vendor's Solicitors in accordance with this Agreement and upon undertakings settled between or among the Purchaser's Solicitors, the Vendor's Solicitors, each acting reasonably; and

- (ii) receipt of the net mortgage proceeds required to be advanced to the Purchaser in respect of the Purchaser's mortgage or other financing.
- (e) If the Vendor has existing financial charges to be cleared from title, the Vendor, while still required to clear such charges, may wait to pay and discharge existing financial charges until immediately after receipt of the Purchase Price, but in this event, the Vendor agrees that payment of the Purchase Price will be made by the Purchaser's Solicitors to the Vendor's Solicitors, on the CBA Standard Undertakings or other undertakings agreed to between the Purchaser and Vendor's Solicitors, acting reasonably to pay out and discharge the financial charges, and remit the balance, if any, to the Vendor.
- (f) Submission for registration of all the requisite documents in the LTO on the Closing Date and all matters of payment and delivery of documents by each party to the other in respect of the Closing Date will be deemed to be concurrent requirements of Closing.
- (g) Notwithstanding the Closing procedures, as between the Vendor and the Purchaser, it remains the Purchaser's obligation to pay the Purchase Price (adjusted in accordance with the Statement of Adjustments) to the Vendor on the Closing Date, regardless of whether the Purchaser's Solicitors receive all or any proceeds of the Purchaser's mortgage or other financing, and the failure of the Purchaser to pay the Purchase Price to the Vendor on a Closing Date will constitute a default by the Purchaser under this Agreement.
- (h) Immediately after the Closing, the Purchaser shall be entitled to have possession of the Property subject to the Permitted Encumbrances and to the extent such items are within the possession or control of the Vendor, the Vendor will make available to the Purchaser for pick up or for its custody, all access cards, security cards, keys (including master keys) relating to the Property, all instructions, manuals, original plans and specifications and other documents associated with any of the Building, executed copies of all Service Contracts and Leases.

 - (d) Until such time as the transaction is completed, the parties agree that none of them will issue any press or other publicity release or communication to the general public concerning the subject matter of this Agreement without the prior written approval of the other party, unless such disclosure is required by law.

In such case, the Purchaser shall remain liable in respect of its obligations hereunder. No other assignments by the Purchaser are permitted without the Vendor's prior written consent.

4.2 Duties and Liabilities of the Escrow Agent

The duties, liabilities and obligations of the Escrow Agent pursuant to this Agreement are subject to the following terms and conditions:

- (a) The Escrow Agent has no duties or responsibilities other than those expressly set forth in this Agreement, which the parties agree are purely administrative in nature, and no implied duties or obligations may be read into this Agreement against the

Escrow Agent. For greater certainty, the Escrow Agent is not bound by any agreement, arrangement or understanding relating to or arising out of the matters provided for in this Agreement, except as expressly set forth in this Agreement. In particular, the Escrow Agent shall not, by reason of its execution of this Agreement, assume any responsibility or liability for the transaction contemplated under the PSA.

- (b) The Escrow Agent is not liable for any action it takes or omits to take in good faith and in the exercise of its own judgment, for any error in judgment made in good faith, except for its own bad faith or fraud.
- (c) The Escrow Agent may rely on, and is protected in acting upon, any judgment, order, notice, demand, direction, certificate or other instrument, paper or document which it may receive (including by e-mail) in connection with its duties under this Agreement and may accept them as sufficient evidence of the facts stated in them. The Escrow Agent is in no way bound to inquire as to the veracity, accuracy or adequacy thereof or call for further evidence (whether as to due execution, validity or effectiveness, or the jurisdiction of any court, or as to the truth of any fact), and is not responsible for any actions, proceedings, losses, liabilities, costs, claims, damages, expenses (including legal fees and expenses) and demands that may be occasioned by its failing to do so.
- (d) If the Escrow Agent becomes involved in any arbitration or litigation relating to this Agreement, the Escrow Agent shall comply with any decision reached through such arbitration or litigation.
- (e) In the following circumstances, the Escrow Agent may (i) refrain from taking any action under this Agreement until it is authorized or directed otherwise in writing by the Vendor and the Purchaser, or by an order of a court of competent jurisdiction from which no further appeal may be taken or (ii) deposit the Deficiency Holdback with a court of competent jurisdiction in Vancouver, Province of British Columbia:
 - (i) the Escrow Agent is uncertain as to its duties or rights under this Agreement,
 - (ii) the Escrow Agent receives instructions, claims or demands from any party to this Agreement or from a third Person with respect to any matter under this Agreement which, in its opinion, are in conflict with this Agreement,
 - (iii) there is a disagreement between any of the parties to this Agreement which, in the reasonable opinion of the Escrow Agent, may result in adverse claims or demands with respect to the Deficiency Holdback, or any portion thereof then held by the Escrow Agent, or
 - (iv) any of the parties to this Agreement, including the Escrow Agent, disagree about the interpretation of this Agreement or about the rights and obligations of the Escrow Agent or the propriety of an action contemplated by the Escrow Agent under this Agreement.
- (f) Upon the Escrow Agent depositing the Deficiency Holdback, or any portion thereof then held by the Escrow Agent, with a court in accordance with Section 4.2(e), the Escrow Agent will be released from its duties and obligations under this

Agreement.

- (g) Notwithstanding any other provisions of this Agreement, the Escrow Agent shall not be liable or accountable for any interest or other investment income on the Deficiency Holdback except such interest or other investment income as is actually received by it.

4.3 Escrow Agent's Fees, Costs and Expenses

The Purchaser hereby agrees to pay the reasonable fees, expenses and disbursements incurred by the Escrow Agent in connection with the performance of its obligations hereunder.

4.4 Resignation, Removal of Escrow Agent

- (a) The Escrow Agent may resign its trust and be discharged from all further duties and liabilities hereunder at any time after giving 30 days' prior written notice to the parties hereto or such shorter notice as the parties hereto may accept as sufficient, and may be removed from its office as such Escrow Agent by Purchaser and the Vendor jointly at any time by not less than 30 days' prior written notice given to the Escrow Agent.
- (b) In the event of the resignation of the Escrow Agent or its removal from office, the Purchaser and Vendor have thirty (30) days to jointly appoint a successor and the Escrow Agent shall deliver the Deficiency Holdback, or any portion thereof then held by the Escrow Agent, as directed by the Purchaser and Vendor, jointly. If a successor is not appointed in accordance with this Section 4.4(b), then the Escrow Agent shall cease its function at the expiration of the notice period and be entitled to deliver the Deficiency Holdback, or any portion thereof then held by the Escrow Agent, into the Supreme Court of the Province of British Columbia to be held and released in the manner directed thereby.
- (c) This Agreement terminates and ceases to be of any further force and effect with respect to the Escrow Agent on the date on which the Escrow Agent delivers the Deficiency Holdback, or any portion thereof then held by the Escrow Agent, to a successor or deposits it with a court in accordance with Section 4.4(b).
- (d) Upon the appointment of any successor escrow agent, the successor escrow agent will be vested with the same powers, rights, duties and responsibilities as if the successor escrow agent had been originally named as Escrow Agent under this Agreement and will be subject to removal under this Section 4.4. The Purchaser, the Vendor and the successor escrow agent shall execute and deliver all documents and take all such actions as may, in the reasonable opinion of the Escrow Agent, be necessary or desirable for the purpose of effectively transferring the Deficiency Holdback, or any portion thereof then held by the Escrow Agent, to the successor escrow agent upon and subject to the terms of this Agreement.

4.5 Termination of Agreement

In addition to terminating in accordance with Section 4.4, this Agreement terminates and ceases to be of any further force and effect on the date on which the Escrow Agent delivers the remaining balance of all of the Deficiency Holdback together with the accrued interest thereon, in accordance with Section 3.2, or deposits it with a court in accordance with 4.4(b).

4.6 Right to Continue to Act

Each of the Purchaser and the Vendor acknowledge that the Escrow Agent has acted and will continue to act as legal counsel to the Purchaser with respect to various matters, including the PSA. Each of the Purchaser and the Vendor agree that, as the Escrow Agent is not acting as legal counsel to the Vendor, the Escrow Agent will not, by virtue of acting as Escrow Agent, be disqualified from continuing to act for and represent the Purchaser in connection with the PSA and any other matters (both in the present and the future), including in matters adverse to the Vendor and its interests.

4.7 Residence of the Vendor

The Vendor represents and warrants to the Escrow Agent that it is not a non-resident as defined in the *Income Tax Act* (Canada).

Construction
It is built completely from 3/4" thick hardwood plywood with a combination of steel fasteners, screws, angle brackets, epoxy-coated staples, and then locked into a tempered steel seat unit with sinuous springs. The spring unit is a 4-turn Bonnell spring unit and is made of 13½-gauge wire coils, which are tied together with 17½-gauge lacing helicals. A plush 1-inch layer of hypoallergenic densified fibre is upholstered between the quilted top panel and the insulator pad to provide a plush sleeping surface. An insulator pad is used on the bottom of the spring unit as well as the top. The sleeper sofa is equipped with a 299-coil innerspring mattress. A 2.5 oz. non-woven flange is attached to the spring unit and ensures that the top panel will not shift. Additionally, a 1¼-inch binding is used on both the top and the bottom seam to reinforce it's strength.

Cushions
Seat cushions use "ENDURO - PLUSH" H.R. (High Resilience) type foam with a 1.8 lb. per cubic ft. density. Back foam and arm foam are also H.R. type foam with a 1.5 lb. per cubic ft. density. The ILD (Initial Load Deflection) is 30 lbs per sq. in. All seat cushions are wrapped with "Enduro Loft", a bonded polyester pad, ¾ oz. per sq. ft., fabricated from 100% virgin polyester fiber.

Compliance
Meets California TB603 Flammability.
Meets California TB117 Flammability.
Meets Federal 1633 CFR Standards.
Complies with carbon formaldehyde emissions Phase 1.

Richard McLean, President
Dunna'eh House of Healing Society
Former Chief of Tahltan Nation

Dear Chief McLean,

Re: Letter of Support for Dunna'eh House of Healing

It is with pleasure that the First Nations Health Authority (FNHA) provides this letter of support, in principle, for the Dunna'eh House of Healing project.

The FNHA is the first province-wide health authority of its kind in Canada and is the health and wellness partner to over 200 diverse First Nations communities and citizens across BC. In 2013, the FNHA began a new era in BC First Nations health governance and health care delivery by taking responsibility for the programs and services formerly delivered by Health Canada.

These community-based programs and services include the First Nations Health Benefits program that covers specific health-related items and services across six benefit areas. One of the six benefit areas involves the provision of medical transportation benefits to support clients to access medically necessary health services that are not available in their community of residence. Eligible clients may be provided with funding for meals, accommodation, and transportation as required. To provide a sense of the scope of this benefit area, over a recent five-year period the FNHA supported close to 400,000 trips across the province to access medical care.

Accessing culturally-safe care away from home is a significant worry for many First Nations people due to racism that exists across the health care system. The vision of the Dunna'eh House of Healing is one of hope where community members needing care in and around Vancouver can stay with dignity in an environment that is grounded in culture and support.

The Dunna'eh House of Healing is presenting a meaningful opportunity to improve the medical accommodation experience for First Nations community members and families seeking medical services, diagnosis and/or treatment in and around Vancouver and we support their efforts in this space.

As the Dunna'eh House of Healing project moves closer to fruition we look forward to the prospect of exploring further partnership opportunities with a shared goal of the provision of culturally safe, temporary accommodation at affordable rates for First Nations people in BC.

Attention: George Morrison & Norm Porter

Dear Sirs:

**RE: Appraisal of the High-Rise Apartment Development Under Construction Located at
2538 Birch Street, Vancouver, British Columbia**

In accordance with your instructions, we have completed an appraisal of the above noted property, and our findings in this regard are outlined in the following report. The property being appraised presently comprises a high-rise mixed-use project being developed on a 18,762 square foot site located within the Fairview neighbourhood of the City of Vancouver. This report is being completed based on the assumption that the project is complete and operating on a stabilized basis. The project will encompass a 28 Storey mixed use building with 258 residential units and 24,455 square feet of leasable commercial space on the first two levels. Completion of the building is set for January, 2026.

The purpose of the appraisal is to estimate the market value of the proposed development as if complete and fully leased and operating on a stabilized basis with all leasing costs having been expended, for financing purposes.

Market value for the purposes of the report is defined as:

"The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and

knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- a) Buyer and seller are typically motivated;*
- b) Both parties are well informed or well advised, and acting in what they consider their own best interest;*
- c) A reasonable time is allowed for exposure in the open market;*
- d) Payment is made in terms of cash in Canadian Dollars or in terms of financial arrangements comparable thereto; and*
- e) The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale."*

Based upon a personal inspection of the property completed on September 23, 2025 and an analysis of all factors requisite to providing a value indication, it is our professional opinion that the market value of the proposed development as if completed to the specifications outlined in this report for a 28 Storey mixed use building, operating on a stabilized basis at market rents, as of September 23, 2025 on a cash basis, is as follows:

TWO HUNDRED AND FORTY MILLION DOLLARS
\$240,000,000 (Rounded)

Hypothetical Conditions and Assumptions include the following:

- The building has been completed to the design and specifications provided;
- The property is operating on a stabilized basis with all leasing costs having been expended;
- The value includes all furnishings in the market units;

The foregoing values are based upon the Terms of Reference and Assumptions and Limiting Conditions outlined within the report, which forms an integral part of the analysis. Our compensation for the completion of the assignment was not contingent upon a pre-determined value or conclusions.

It has been a pleasure to complete this report on your behalf. If you have any questions or require clarification on any point, please contact the undersigned at your convenience.

Respectfully,
PARKES & COMPANY LTD.

John G. Parkes, AACI, P.App.

The total population of the GVRD was 1.6 million people as of the 1991 census, which increased to over 2 million as of the 2001 census with continued growth recorded in the 2021 census at 2.463 million for the Vancouver CMA. The current population of the CMA is estimated at about 2.7 million. According to BC Stats, the City of Vancouver had a population in 2021 of 662,248 and is the largest city in the province and the third largest in Canada. The current population is estimated at 687,933. Population growth over the past 45 years is as follows:

Year	Population	Increase over previous period
1961	384,522	
1971	426,298	41,776

1981	414,280	-12,018
1991	471,844	57,564
1996	514,008	42,164
2001	545,671	31,663
2006	578,041	32,370
2011	603,502	25,461
2016	631,486	27,984
2021	662,248	30,762

Vancouver's Central Area has 60% of the region's office space and is home to headquarters of forest products and mining companies as well as branches of national and international banks, accounting and law firms. In recent years, Vancouver has expanded significantly as a centre for software development and biotechnology, while film studios and the streets provide a backdrop for the film industry. Two of the Port of Vancouver's container docks are located in the city. The Fraser River has barge and log traffic serving forestry and other water related industries. Around 1,800 acres of industrial land provide support services, manufacturing and wholesale premises for businesses throughout the city and region.

The City of Vancouver is situated on the western boundary of the Greater Vancouver Regional District, adjacent to the west boundary of the City of Burnaby. The north boundary is formed by the Burrard Inlet, and the south boundary by the Fraser River. The Strait of Georgia and the University of British Columbia bound the city on the west. The community occupies some 11,309 hectares of land, the eighth largest land base in the region.

Vancouver tends to be the economic centre of British Columbia, with 108 of the 176 largest public and private employers in the province having their head offices in the City. These companies employ more than 264,000 people, with revenues being in excess of \$83 billion. It is also forms the regional head office for the majority of the major financial firms, with over 30 banks operating in the City of Vancouver. Currently, Vancouver has some 33 million square feet of office space in the downtown area or close to 50% of all the office space in the

region. Of interest is that Vancouver's share of the office market has been decreasing over the past several years, from a high of more than 63% in 1981. With nearly 35 million square feet of retail space, Vancouver has over 35% of the regions total, and more than double that of any other municipality.

The Vancouver region is also the main western rail/port centre for Canada. All railways lead to Vancouver, as does the Trans-Canada Highway. The Port of Vancouver is a deep-sea port, specializing in general cargo and bulk commodity exports. Docks exist along the Burrard Inlet in the municipalities of Vancouver, Burnaby, Port Moody, Port Coquitlam, and North Vancouver. The Fraser Port, on the south side of Vancouver, is a deep-sea port, specializing in general cargo, automobiles, containers, and forest products. The North Fraser Port specializes in shallow draught ships, usually for forest products or coastal traffic. Overall traffic has been up over the past three years and is projected to increase into the next year.

Overall, Vancouver has good long-term potential, being provided with a strategic location that will allow it to capitalize on increased international trade in the future. As well, the Lower Mainland's position as a major international shipping nexus will provide long term benefits as trade with the United States, and the Asian Pacific Rim countries, continues to increase.

The subject is situated on the southeast corner of West Broadway and Birch Street within the Broadway Corridor commercial area of the City of Vancouver. This denotes the commercial area running from Arbutus Street to the west and Cambie Street to the east along Broadway. The subject property is also within the Fairview neighbourhood which is bounded by Burrard Street in the West, 16th Avenue in the South, Cambie Street in the East and False Creek to the north.

In the 1970's, Fairview underwent a community planning process determining what it looks like today. Development of the south shore of False Creek, from industrial manufacturing to residential land use with the concurrent development of the sand bar. Granville Island marked the changes seen in 1970's. Further transformation of its north shore occurred with Expo '86 and with the development of the 2010 Olympic Venues spanning the inlet from the Burrard to Cambie Street Bridges.

The subject property is situated in close proximity to the Downtown Core via either the Cambie Street Bridge or the Granville Street Bridge, as well as to the University of British Columbia via Broadway to west. The Vancouver General Hospital and Vancouver School Board are also within close proximity, attracting healthcare and education related facilities nearby. The South Granville

Retail Corridor is situated two blocks to the west and the subject property is at a high elevation point for West Broadway.

West Broadway entails a major arterial roadway traveling east/west across the city from the University of British Columbia to the Burnaby border in the east and includes commercial land uses on virtually every block on the west side. A wide variety of amenities can be found in close proximity to the subject on both West Broadway and Arbutus Street while good access is available to the Downtown area as well as the waterfront. The site is also well positioned to be a part of further transformation in the area with a proposed rapid transit line station being located just one block away. A 2013 study by KPMG for the City notes the following about the Broadway Corridor.

Key Study Findings – At a Glance

Key features of the UBC-Broadway Corridor:

- After Downtown Vancouver, the largest business and innovation centre in the province, with more jobs and people than any other town centre in the region;
- Growing faster than previously projected in the 2011 Regional Growth Strategy, with an estimated increase in employment and population of 150,000 over the next 30 years due to growth both at UBC and in Vancouver;
- The combined commercial/institutional floor space in the Corridor is almost equal to that found in the Downtown and is experiencing significant growth;
- The Corridor includes UBC, BC's largest and most globally significant and research-focused university, and has the largest health care/life sciences precinct in the province; and
- Lacking adequate transportation infrastructure to meet the current and future economic and population needs of both UBC and the City of Vancouver.

Unlocking the economic potential of the UBC-Broadway Corridor to become a globally significant high-tech hub like Toronto's MaRS, San Diego CONNECT or London's Tech City requires:

- High-capacity, fast, reliable rail-based rapid transit connecting UBC with essential research partners and job centres along the Corridor, including the health and research precinct around Vancouver General Hospital, and throughout the Metro Vancouver Region, and
- Strong, intentional City and UBC collaboration to support economic growth with a focus on high technology, life sciences and green business expansion, to better leverage both public and private sector investment.

In June 2014, the Metro Vancouver Mayors' Council on Regional Transportation shared a 10-Year Transportation Vision outlining transit and transportation investments to keep Metro Vancouver moving. The Vision includes an extension of the existing Millennium Line SkyTrain service, from VCC-Clark to a new station at Arbutus Street, tunneled beneath the Broadway Corridor as a first phase with the second phase extending the line to UBC. Timing of the second phase is unknown at this point but the potential for higher density mixed-use projects use is considered likely.

Construction of the first extension is underway as of 2025 and is expected to be completed in the fall of 2027. The LRT expansion program is outlined in the following map.

Overall, the subject is well situated in the heart of the Broadway Corridor with significant future potential for a continuation towards retail/residential use adding to the already good access and exposure of the site. The current development of the subject conforms to the improvements along West Broadway, with the neighbouring properties along Broadway being dominated by commercial uses.

MARKET OVERVIEW (Q2-2025)

Real gross domestic product (GDP) contracted 0.4% in the second quarter, after rising 0.5% in the first quarter. A drop in exports and decreased business investment drove the contraction in the second quarter of 2025. Specifically, exports fell 7.5% and business investment in machinery and equipment declined. The contraction was partially offset by faster inventory accumulations and increased household and government spending. Household spending increased by 1.1% in Q2, while government expenditures rose by 1.8%. Before the Q2 slowdown, the Canadian economy grew by 0.5% in the first quarter of 2025. This growth was driven primarily by exports and business inventory accumulation. For the full year 2024, real GDP by industry grew by 1.6%. The services sector was the main driver of growth, even though it was the slowest pace in four years.

Exports declined 7.5% in the second quarter of 2025 after increasing 1.4% in the first quarter. As a consequence of United States-imposed tariffs, international exports of passenger cars and light trucks fell 24.7% in the second quarter. Exports of industrial machinery, equipment and parts (-18.5%) and travel services (-11.1%) also declined.

Amid the counter-tariff response by the Canadian government for imports from the United States, international imports declined 1.3% in the second quarter, after rising 0.9% in the previous quarter. Lower imports of passenger vehicles (-9.2%) and travel services (-8.5%; Canadians travelling abroad) were moderated by higher imports of intermediate metal products (+35.8%), more specifically, by unwrought gold, silver, and platinum group metals.

Export (-3.3%) and import (-2.3%) prices fell in the second quarter, as businesses absorbed some of the additional costs of tariffs by lowering prices. Given the larger decline in export prices, the terms of trade—the ratio of the price of exports to the price of imports—fell 1.1%.

Retail sales decreased 0.8% to \$69.6 billion in July. Sales were down in eight of nine subsectors and were led by decreases at food and beverage retailers. Core retail sales—which exclude gasoline stations and fuel vendors and motor vehicle and parts dealers—were down 1.2% in July. In volume terms, retail sales decreased 0.8% in July.

Following an increase of 2.2% in June, core retail sales fell 1.2% in July on lower sales at food and beverage retailers (-1.3%). This subsector's decrease was led by lower receipts at supermarkets and other grocery retailers, which were down 2.5% in July following an increase of 2.6% in June. Beer, wine and liquor retailers (+3.2%) were the only store type within this subsector to post an increase in July. Lower sales were also recorded at clothing, clothing accessories, shoes, jewelry, luggage and leather goods retailers (-2.9%) in July. Clothing and clothing accessories retailers (-3.2%) led the decrease in this subsector. Sales at motor vehicle and parts dealers edged up 0.2% in July. The increase was led by higher sales at other motor vehicle dealers (+5.0%) and to a lesser extent, new car dealers, which edged up 0.1% in July. Partially offsetting gains in this subsector were used car dealers (-0.9%) and automotive parts, accessories, and tire retailers (-0.7%).

Sales at gasoline stations and fuel vendors decreased 0.9% in July. In volume terms, sales at gasoline stations and fuel vendors increased 0.2%.

Retail sales decreased in five provinces in July. The largest provincial decrease in dollar terms was observed in Ontario (-1.6%) on lower sales at motor vehicle and parts dealers. In the census metropolitan area (CMA) of Toronto, retail sales were down 1.6% in the month. On a seasonally adjusted basis, retail e-commerce sales increased 2.2% to \$4.3 billion in July, accounting for 6.1% of total retail trade, compared with 6.0% in June.

Household spending increased 1.1% in the second quarter after rising 0.1% in the first quarter. Higher expenditures for new trucks, vans and sport utility vehicles (+5.6%) led the overall increase in the second quarter, followed by insurance and financial services (+1.3%), food (+0.9%) and food and beverage services (+0.9%). These increases were tempered by reduced spending on electricity (-3.2%) and alcoholic beverages (-3.9%). On a per capita basis, household spending increased 1.1% in the second quarter, after being flat in the first quarter, as population growth eased.

Compensation of employees edged up 0.2% in the second quarter; this was the smallest increase since the second quarter of 2016 (aside from the pandemic-induced decline in 2020). Wages and salaries were up in construction (+1.2%), federal government public administration (+2.5%) and mining and oil and gas extraction (+2.9%). In contrast, wages fell in finance, real estate and company management (-1.1%) and utilities (-6.1%).

Compensation of employees, quarter-to-quarter % change, seasonally adjusted data

The household saving rate fell to 5.0% in the second quarter of 2025, down from 6.0% in the first quarter. Disposable income edged up 0.3% in the second quarter, pulled lower by weak growth in salaries and wages, while nominal household consumption expenditures rose 1.2%. Overall, household incomes were relatively weak across several components. Household property income received rose 0.9% in the second quarter, as a decline in interest earned on deposits, securities and other assets (-1.8%) was more than offset by increases in foreign investment and in dividend income.

As the Bank of Canada held the policy interest rate steady in the second quarter, household property income payments, comprised of mortgage and non-mortgage interest expenses, edged up 0.1%. Mortgage interest paid expanded 0.7%, marking the first quarter of growth following three consecutive quarterly declines. Interest paid on consumer credit products, such as personal loans and lines of credit, ticked up 0.1%.

Residential investments rose 1.5% in the second quarter of 2025, driven by an increase in new construction (+3.7%), as higher work-put-in place and absorptions for apartments,

primarily in British Columbia, fuelled growth. Ownership transfer costs, which represent residential resale market activity, rose 1.0% in the second quarter, recovering slightly from a large decline (-16.3%) in the first quarter. In contrast, residential renovations declined 1.1% in the second quarter.

The growth rate of residential construction varies by region, but recent Canadian data from early to mid-2025 shows mixed results with some provinces experiencing investment growth, particularly in multi-unit construction, while others see declines, driven by factors like interest rates, supply chain issues, and labor shortages. For example, British Columbia's construction sector, including residential, was projected to be a driver of growth through to 2032 after short-term contractions.

Compensation trends in Canada show a projected slight increase for 2025, with salary increases expected to be around 3.4% to 3.6%, down from 2024 but closer to pre-pandemic levels. Employers are adjusting to economic conditions, with some scaling back budgets and many utilizing variable compensation and non-monetary incentives like career development to attract and retain talent in a more balanced labour market. .

The Chartered Banks' Conventional Mortgage 5-year Interest Rate has been relatively low from at least 2018 to April 2022. In April 2022, the rate climbed to 4.99% and continued to climb to 7.04% in December 2023. As inflation slowly stabilized, rates started to move and were at 6.59% in August 2024 and are currently at 3.94%.

British Columbia

As of January 1, 2025, the population of British Columbia reached an estimated 5,722,318, a net increase of 2,724 (0.05%) compared to the previous quarter. In the previous 12 months, the population of B.C. grew by 94,357 (1.7%). This is the lowest annual population growth rate in B.C. since the third quarter of 2021. In the fourth quarter of 2024, 3,837 net migrants came to B.C. from outside of Canada, its lowest level since the fourth quarter of 2020 and a large reduction (-90%) relative to the fourth quarter of 2023, which saw a net gain of 37,957 individuals. The largest net loss for interprovincial migrants from B.C. was to Alberta (1,663), with 4,521 leaving B.C. for Alberta and 2,858 coming to B.C. from Alberta.

The following table outlines current population components.

The unemployment rate in British Columbia was 7.0% in May 2025, unchanged from the previous month. In May, employment among core-aged (25 to 54 years old) women increased by 42,000 (+0.6%), while among core-aged men it fell by 31,000 (-0.4%). Employment was little changed for youth and people aged 55 years and older.

The map below from BC Statistics shows the distribution of unemployment throughout the province for the month of February, 2025, at an unadjusted average (not seasonally adjusted):

British Columbia Unemployment Rates
February 2025 - Unadjusted, 3 Month Moving Average

The unemployment rate for Metro Vancouver has stayed in line with the provincial unemployment rate in recent years. Metro Vancouver recorded an unemployment rate of 4.4% in February 2020. Since the pandemic, however, this number spiked to a high of 13.6% in July, 2020. Since the pandemic has eased into an endemic stage, Metro Vancouver's unemployment numbers have been either the same or slightly higher than BC's, but the gap widened in late 2023. Although in April 2024, it was the same as BC's at 5.3%, it grew higher than BC in May 2024 and has remained slightly higher to May, 2025.

BC retail sales have experienced a steady increase since 2014. Every subsequent year saw an upward trend until the last few years, each year starting higher than the previous one. While 2019 started higher than the end of 2018, their numbers were very close through 2019, seemingly indicating an end to the annual upward trajectory year-over-year as seen over the past several years. The first couple of months of 2020 appeared to be following a similar trajectory until the pandemic and subsequent restrictions and lockdowns. Sales started to normalize in 2021 as restrictions relaxed and consumers adjusted to the new retail

environment. Consumers were also making up for a lack of purchases in the full shutdown months. The retail sales have been steady from 2020 onwards. In 2024, British Columbia's retail sales saw a 1.3% increase year-over-year, with gains led by motor vehicle and parts dealers, and a 1.8% increase in volume terms in the fourth quarter. Following is a more detailed breakdown:

- **Motor Vehicle and Parts Dealers:** This subsector led the gains in retail sales.
- **Gasoline Stations and Fuel Vendors:** Sales were down in this sector.
- **Core Retail Sales:** Core retail sales (excluding gasoline stations and motor vehicle dealers) saw a 0.2% decrease in January.
- **Food and Beverage Retailers:** Sales at food and beverage retailers were down in January, mainly due to lower sales at supermarkets and other grocery retailers.
- **Electronics and Accessories Stores:** These stores showed resilience, with sales up 7.8% year-over-year, potentially due to Prime Day, refresh cycle, and interest rate anticipation.

Below is a graph of BC retail sales:

Overall, the provincial economy was relatively healthy prior to Covid-19 with economic indicators used to measure the province's performance suggesting that BC was faring well

compared to other provinces. There are continued encouraging signs of an economic stabilization following the end of the pandemic. However, there are still serious issues affecting the economy which are threatening to put Canada into a recession at some point in 2025. Continued high interest rates, supply chain issues, worker and housing shortages, and higher inflation are still trends that bear close watching. More recently trade issues with the US have become a major concern.

Metro Vancouver

According to Census Canada data, Metro Vancouver's 2011 population was 2,313,328, growing to 2,463,435 as of the 2016 census. As of the 2021 census, Metro Vancouver's population was 2,642,825, an increase of 7.3% between 2016 and 2021 and 6.5% between 2011 to 2021. As of July 2022, the Metro Vancouver population was 2,842,730, growing by 2.8% from 2021. More than ever people are choosing to live in outlying cities, or suburbs, within Metro Vancouver because the pandemic had more people working from home and thus not needing to be close to work as well as because of cheaper housing costs. The city of Vancouver's population grew 1.7% between 2021 and July, 2022 but every other city or district in Metro Vancouver grew by at least double Vancouver's rate. As of mid-January 2025, Statistics Canada estimates that Metro Vancouver's population has exceeded 3 million residents, with much of the growth driven by suburban areas like Surrey and Langley.

Retail sales in Metro Vancouver had seen consistent annual increases in past years, with 2016 starting to slow with a small increase from January to December of that year. In the years 2017, 2018 and 2019 sales generally remained consistent around the same levels, not steadily increasing as before. Similar to the provincial retail sales numbers, Vancouver saw a pandemic caused dip in April 2020, followed by a return to normal levels in June 2020. There has been a steady overall increase across the last half of 2020, continuing into 2023. Retail sales have rebounded strongly from the pandemic due to pent up demand. However, high inflation has resulted, leading to the implementation of higher interest rates. So far, the lack of increase in retail sales starting 2024, and the Bank of Canada decreasing interest rates indicate that inflation is stabilizing. However, interest rates and inflation are still higher than the pre-pandemic norms. Seasonally adjusted retail sales were up 0.2 per cent for October 2024 compared to September 2024, rising to \$4.5 billion. Year over year, monthly unadjusted retail sales were up 3.2 per cent while year-to-date sales were also up 1.1 per cent.

Below is a graph of Metro Vancouver retail sales:

Metro Vancouver Retail Sales Seasonally adjusted, \$ millions

For the Vancouver CMA, the planned spending for all building permits in 2024, up to June, had fallen 1.4%, while residential permits for the region decreased by 11.5% for the same time frame. 2024 year to date statistics would project a slight increase in 2024 over 2023 levels. We know that although there are monthly swings, the overall trend has been less residential building, given higher interest rates and inflation mean the market is slowing and is resulting in higher costs for developers. This situation is currently being exacerbated by the trade dispute with the US resulting in significant uncertainty. As of April, 2025 building permits were down 72.1% between April 2024 and April 2025.

Below is a graph and table of Metro Vancouver building permit levels:

Metro Vancouver Building Permits Volume (\$ Millions)

In general, the economy fared relatively well in Q2 2025. The supply chain issues have eased but are still problematic as are worker shortages. Wages have stabilized and are not rising as fast as they were. High prices are ongoing, especially with essentials like food and housing, albeit stabilizing. Global factors out of Canada's control such as the war in Ukraine and China's economic slowdown, amongst others, have also kept inflation high. The region will likely outperform or closely track the provincial growth rate. If B.C. grows 1.5 to 1.8 %, Greater Vancouver might post growth in the 1.8 % to 2.5 % range, depending on the strength of services, construction, and exports.

Four legal notations are present on title with the first being an annexed easement over Lot C, Plan 22980 which formally included Lot 3, Block 353, Plan 590. This charge along with the Easement from 1991 under reference number BE53176 refers to the adjacent building to the east. It has allowed the development at 1260 West Broadway to install underpinning and shoring work under the foundation at the eastern end of the subject property and to leave some infrastructure within the subsurface such as anchors, plates and underpinnings. The second legal notation refers to a Housing Agreement and modifications under the Vancouver Charter, S. 565.2. The two remaining legal notations involve a builder's lien and an easement over the strata plan.

The charges on title relate to the ongoing development and financing .

The remainder of the charges on title relate to the housing agreement and financing in place with the City of Vancouver and the British Columbia Housing Management Commission.

There is currently an accepted offer in place to acquire the property upon completion dated August 12, 2025. The consideration is in the amount of \$229 million.

In Summary, the subject property comprising of a parcel with an area of 18,762 square feet. The subject property has good access and exposure from the adjoining roadways, while there are no physical or titular restrictions in evidence which would inhibit the redevelopment of this property. The legal plans pertaining to these properties can be found on the following page:

ZONING CRITERIA

The City of Vancouver has designated the subject property to be zoned CD-1 (708) effective as of July 24, 2018. This calls for 22% of the building to be developed under the Moderate Income Rental Housing Program (MIRHP).

This report is being conducted based on an FSR of 10.50, including 258 residential units over 28 storeys and leasable commercial space comprising of 24,455 square feet.

ASSESSMENT & TAXES DATA

The 2025 tax levy is \$209,270.

The following is a breakdown of the 2025 assessed value for the land and improvements for the project.

Land:	\$29,966,000
Improvements:	<u>\$ 19,410,000</u>
Total:	\$49,376,000

Of note is that the assessment is as of an effective date of July 1, 2024 based on the physical condition of the property as of October 31, 2024.

DESCRIPTION OF IMPROVEMENTS

The following description of improvements is based upon a personal inspection of the property completed on September 23, 2025. As of the effective date of appraisal construction was ongoing as seen below:

The project under construction involves a 28 Storey concrete mixed use tower with 258 residential units and 24,455 square feet of leasable commercial space on the first three levels.

The commercial use is to be contained within the first three floors of the building with a rendering of the exposures from West Broadway and Birch Street shown following:

Figure 5: DP submission (July 2021)

Due to the sloping nature of the site three storeys are evident along West Broadway and two from the laneway. However, in reality there will only be two levels of actual leasable commercial area, with the main level CRU's having a 20 foot ceiling height, which may provide future opportunity to add some mezzanine area. Access to the five levels of underground parking and delivery bays will be available off of the lane.

The commercial component of the project has a slightly different configuration with different unit sizes for the ground floor, mezzanine and second floor which is labeled as the third level within the architectural drawings.

The floor plans below represent the commercial portion of the building:

Ground Floor

The ground floor of the subject property is designated for retail use. A total of 8,177 square feet of space is involved with the opportunity to demise the space into six different units if desired with five fronting onto West Broadway and one on Birch Street.

Second Level

The second floor includes minimal space due to the 20 foot ceiling heights for the retail level, but it does include communication and electrical rooms for the commercial space in addition to an ecological unit for the ground floor retail space.

Third Level

The third floor will have an entrance from a separate office elevator lobby at the northeast corner of the building and encompasses 16,108 square feet or area.

The upper 25 storeys are dedicated to residential suites encompassing 201 market units and 57 subsidized units as follows:

Unit type:	Total number of units:
Studio	8 units
1 bed	118 units

2 bed	65 units
3 bed	10 units
	total number of Market units: 201

Unit type:	Total number of units:

1 bed	24 units
2 bed	11 units
3 bed	9 units
	total number of MIRHPP units: 57

As per the table provided by the architect for the 28 Storey building, a total of 130 parking stalls will be provided for the 200 secure market rental units. These stalls are inclusive of Visitor and Handicap stalls. The Moderate Income portion of the building will include 22 stalls including Visitor and Handicap stalls for the 58 designated units.

The commercial portion of the building will be provided with 36 parking stalls including two Handicap stalls. The building includes four and a half levels of underground use. When completed, the subject property will include over 22% of their rental stock designated for Affordable Mid-Market Rental.

The units are on the smaller side of what can be found in the market for the unit types, however modern design will result in efficient space utilization. The building will also include state-of-the-art systems and features that will appeal to the current market expectation for new apartments. The building will adhere to Green Buildings Standard including LED Lighting throughout suites and common areas, central air recovery ventilator, strict air tightness, significant insulation in the form of interior plus exterior Roxul insulation, and higher performing glazing, and extensive brick cladding with minimized window areas.

Each unit will be provided with a Tosot multizone split heat pump system and their own hot water tanks. The tenants will be responsible for the cost of their heating, hot water and a/c. Each unit will have floor drains to mitigate possible damage caused by accidental leaks.

The studio and one-bedroom units in the building will include all stainless-steel appliances with a Fisher & Paykel fridge with the remainder of the kitchen appliances from Whirlpool. The laundry facilities are white front-loading machines by Samsung. The two and three-bedroom units include a stepped-up appliance package with the fridge being from Fisher & Paykel while the wall oven, cook-top and microwave built by KitchenAid. The dishwasher in these units will be a Whirlpool with a stainless-steel basin. The washer and dryer have a 2.2 cubic foot capacity with a steam wash feature from Samsung.

The kitchen and bathroom hardware will be from Kohler providing a level of quality not typically seen in rental projects. The flooring throughout the units will be the Flex Wood product from Allura. This product comes in large format planks and come with a fine wood grain finish.

The floor plans for the residential portion of the building are seen below:

HIGHEST AND BEST USE

The term “Highest and Best Use” for the purposes of this report is defined as *“the reasonably probable and legal use of vacant land or an improved property, which is physically possible, appropriately supported, financially feasible and that results in the highest value”*.

The highest and best use of both land as though vacant and property as improved must meet four criteria. The highest and best use must be legally permissible, physically possible, financially feasible, and maximally productive. For improved properties, as long as the value of the property as improved is greater than the value of the site as though unimproved, the highest and best use of the property is for use as improved.

The subject property involves a high-rise mixed-use project which is currently under construction, situated on the West Broadway commercial corridor within the Fairview neighbourhood of Vancouver. This neighbourhood has seen significant redevelopment over the past decade as demand for housing continues to increase in the neighbourhood and in Metro Vancouver as a whole.

In consideration of the alternative uses of the subject, a high-rise residential project is deemed to be the highest and best use, as opposed to any of the other uses.

Legally Permissible – The subject property is zoned CD -1 (708) and therefore a residential building with three levels of commercial use would be a legally conforming use. This appraisal is based on the 28 storey 10.50 FSR building recently approved by the City of Vancouver. In this case, a redevelopment as described in the Description of Proposed Improvements would be legally permissible.

Physically Possible – The subject comprises a site of 18,762 square feet which is regular in terms of configuration. The parcel is of a size and shape, which would permit a mixed-use residential development.

Financially Feasible – Demand for residential units and retail space is deemed strong in the subject market area. As such, the project under construction is considered to be financially feasible.

Maximally Productive – The project under construction, involving residential units with lower level commercial space is considered maximally productive considering the current market.

Summary – After a review of all of the pertinent information, it is our opinion that the mixed use project under construction would be the highest and best use.

APPRAISAL METHODOLOGY

In appraisal practice, there are three approaches to value generally contemplated. These involve the Cost, Income and Direct Comparison Approaches.

The Cost Approach is based upon the property's worth computed by adding the depreciated value of the improvements to the land value as if vacant. This approach is considered to be most applicable in terms of special use projects, or proposed developments. As the project is already under construction and is assumed to be fully complete and rented this approach will not be undertaken.

The Direct Comparison Approach to Value is based upon the principle of substitution, which states that where a property is replaceable, its value will be no more than that of an equally desirable substitute of like utility, available on the open market within a reasonable period of time. This technique involves the research and analysis of sales and listings of properties considered similar to the subject. After adjusting the sale prices of these comparables for differences between each indicator and the subject property, an estimate of value is derived. The Direct Comparison Approach is easily understood and is the most common method applied by vendors and purchasers in the open market. Canadian courts and tribunals have also indicated that this is the preferred technique for the valuation of vacant land. As such, the Direct Comparison Approach will be utilized within this report as for support purposes for the Income Approach for both the retail and residential portions of the subject property.

The final approach generally contemplated relates to the Income Approach to Value. This technique is considered to be of greatest merit in terms of income producing properties and is typically completed through application of the Capitalization Rate or the Discounted Cash Flow Techniques. The subject project includes two income components, retail and residential. As such, this approach is considered to be applicable to both components of the property. The Capitalization Rate Approach will be completed. As the income will be based on market rentals the Discounted Cash Flow Approach will not be undertaken.

INCOME APPROACH

For leased fee interest, a major consideration when contemplating acquisition would relate to the property's income producing potential. In appraisal practice, there are two primary methods of converting the anticipated income stream into a value indication, with these relating to capitalization of the base, or following year's income stream, while the other involves discounting the future receivables which could be derived from the operation of the property over a set investment horizon. This latter method is referred to as the Discounted Cash Flow Technique. In either instance, the income stream to be either capitalized, or discounted, relates to a net figure which is derived from a calculation of gross potential income, less allowances for vacancies and bad debts, operating expenses and, in some instances, mortgage financing. As the subject is being analyzed based on market rentals, the Capitalization Rate Approach will be applied for valuation purposes.

In estimating the capitalization rate to be applied, a number of factors must be considered in terms of the property's future potential. Basically, the rates to be utilized are dependent upon the amount of risk inherent within any given project, and as well reference must be made to the property's future potential relative to its location, tenant make-up, condition, etc. These factors will be examined on a more in-depth basis in later sections of this report. In this report the residential component has not been valued using this approach as it is not a rental property.

POTENTIAL REVENUE – COMMERCIAL COMPONENT

As outlined in the Description of Proposed Improvements, the commercial portion of the project has a slightly different configuration with different end sizes for the ground floor, mezzanine and second floor which is labeled as the third level within the architectural drawings. The rentable areas are summarized following:

Floor	Leasable Area (Sq. Ft.)
Main Floor	8,177
Mezzanine	170
Upper Floor	16,108
Total	24,455

In order to estimate market rental rates for the ground floor and upper level space, a retail survey for similar commercial spaces in the area has been conducted, and the results are outlined below for the reader's reference:

Retail Space Lease Comparables

CONCLUSIONS

In addition to the above, we have information on preleasing activity to date in the subject building. Staples has a fully executed offer in place to rent the entire upper level and 2,418 square feet on the main floor at a rent of \$62 per square foot for the first five years of a fifteen-year term, \$67 for the next five years and \$72 per square foot for the final five years for the main floor and \$38, \$41 and \$44 per square foot respectively for the upper floor with three five-year options to renew in place at 100% of CPI. The lease would essentially be net in nature although CAM costs would commence at a maximum of \$7.50 per square foot and increase along with the CPI. TI's of \$35 per square foot are payable.

An additional fully executed offer is in place for CRU 2, which encompasses 1,669 square feet, from a dental office. The rate is at \$61.00 per square foot for the first year of a 10 year lease escalating by \$1.50 per square foot for three years and \$1.00 per square foot for the next seven years of a ten year term.

Various other groups are interested while asking rates are in the low \$40's for the 2nd level and low \$60's for the ground floor.

The lease rates for the most recent comparable main floor deals range from \$55.00 to \$65.00 per square foot on a net basis for the most part. A rent of \$62 per square foot would be considered market for the subject based on the provision of a typical TI package.

In general, second floor retail space in Vancouver achieves a lower rental rate due to its exposure and access. A rent of \$38 per square foot would be considered market for this space again based on a typical TI package of \$40 per square foot.

CONCLUSIONS

The figures to be used in our calculations for the leasable commercial areas are as follows:

	Leasable Area (Sq. Ft.)	Rent/Sq Ft)	Annual Rent
Main Floor	8,177	\$62.00	\$506,974
Mezzanine	170	\$15.00	\$2,550
Upper Floor	16,108	\$38.00	\$612,104
Total	24,455		\$1,121,628

PARKING INCOME

The subject property will offer 43 parking stalls for the retail portion of the building in addition to one handicap stall which will likely be rented on a metred basis. Parking fees, vacancy rates and management fees for parkades vary depending on location. These rates have remained stable compared to commercial and residential rental rates over the last few years. Vacancy rates can range from 0% to 50% in Vancouver with the subject property estimated to be approximately 25% for vacancy and management.

Based on other appraisal conducted on properties with a parking component, the subject property's 43 commercial parking stalls based on a metred parking will produce approximately \$150 per stall per month gross. The following table is provided as a summary and represents the commercial stalls:

Projected Annual Net Income – Parking				
	# of Stalls	Per Stall Monthly Rent	Total Monthly Rent	Annual Income
Commercial Parking Stalls	43	\$150.00	\$6,450	\$77,400
Management/Vacancy Allowance @ 25%				<u>\$19,350</u>
Net Income for 43 stalls				\$58,050

VACANCY ALLOWANCE - This report is based on the assumption that the project is full and operating on a stabilized basis. However, it is common in appraisal to provide an allowance for future vacancies due to tenant turnover and rental collection loss. Based on our investigation of the retail spaces in the area, while also considering the fact that the LRT will commence soon after the project is complete a 5% vacancy allowance would be appropriate for the subject property and will be applied for our calculations.

OPERATING EXPENSES – As the lease rates are on a net basis, the operating expenses, which include property taxes and Common Area Maintenance, will be fully recovered by the tenants in the form of additional rents. This can be a factor influencing the net lease rate if the additional rents are significantly above or below market levels. Typical additional rent in the area is approximately \$20.00 per square foot and the expectation for the subject commercial space is the additional rent will fall within this range.

A Pro-forma Operating Statement for the subject based on the above is summarized on the following:

	Leasable Area (Sq. Ft.)	Rent/Sq Ft)	Annual Rent
Main Floor	8,177	\$62.00	\$506,974
Mezzanine	170	\$15.00	\$2,550
Upper Floor	16,108	\$38.00	\$612,104
Total	24,455		\$1,121,628
Less: Vacancy	5%		\$56,081
Net Income			\$1,065,547
Parking	43 Stalls	\$150/mo.	\$77,400
Management/Vacancy	25%		\$19,350
Net Income			\$58,050
Total Net Income			\$1,123,597

As can be noted from the above operating statement in addition to the projected net operating income for the parking in the subject property, a total Net Operating Income for the base year of operation is projected at \$1,123,597.

POTENTIAL REVENUE – APARTMENT COMPONENT

Broadway and Birch is a strong residential location for a high density rental project. The location is at a high point on West Broadway allowing for good views while Granville Street is two blocks away which is a main travel route to downtown and south to other parts of the city. Broadway is a major transportation corridor traveling in an east/west direct. The property will also have rapid transit access soon after being completed with LRT stations being situated at Granville Street and Oak Street two blocks to the west and three blocks to the east of the subject respectively.

A rental survey was completed for the market units in the project by Zonda Urban as of August,

VACANCY AND COLLECTION LOSS ALLOWANCE- APARTMENTS

In order to arrive at the effective gross income for the subject property, an allowance must be made for vacancy and collection loss. According to CMHC's rental market survey for the fall of 2024, the vacancy rate for rental apartment buildings in the South Granville and Oak areas was at 1% overall and 1.4% for studio units, 1% for one-bedrooms, 0.8% for two-bedrooms and 0% for three-bedrooms. The subject property will represent new units at the upper end of the market being more desirable than most of the rental stock in the city. The furnished market involves more short term stays at higher levels of rent which does reflect greater turnover and vacancy levels. This appraisal assumes stabilized operation for the new state-of-the-art subject building; therefore, we expect the vacancy rate to be at the 5% level.

OPERATING EXPENSES- APARTMENTS

In estimating prospective expenses for the year starting from stabilized operation, we have reviewed similar types of properties used as rental buildings in order to provide an indication of typical operating expenses.

1. **Property Taxes** – The property class for municipal tax purposes would be Residential Class 1 for the apartment portion of the subject property. The City of Vancouver tax rate for residential property in 2025 is at 3.11827. The BC Assessment Authority typically values apartment projects on a conservative basis. For example, they apply a 35% expense ratio when the market would typically be at closer to 20% on average for more modern buildings. In reviewing the 2025 assessments for a number of

properties in the Westside, Westend and North Shore markets assessments are typically in the \$500,000 to \$600,000 per suite range. As the subject entails a new project the upper end of the range would be considered applicable. A reduction would have to be applied for the 57 mid-market units. The expectation is that applicable taxes of \$420,000 (rounded) per annum, or \$1,550 per unit will be in place. Of note is that the value for assessment purposes is based on the real estate and would not consider any premium payable for the furnishings.

2. Insurance – Recent changes in earthquake coverage and water damage claims has resulted in increases in premiums. Insurance premiums can vary depending on the type of coverage the owner intends to use and the type of deal they can get from their insurance broker. A reasonable figure would be between \$700 and \$800 per unit per annum. We have used a figure of \$200,328 per annum based on quotes given to the owners. This relates to \$776 per unit relative to the 258 units in the building which is within the expected range;
3. Garbage Disposal & Recycling – This fee can fluctuate depending on the location, the type of contract agreement in place with waste management company and obviously the size of the project. A figure of \$51,600 per annum represents a figure of \$200 per unit per annum. In smaller buildings this figure can be higher, but for the subject building and its larger than normal size in the market, the economy of scale will influence the overall figure;
4. Management Fee – Management costs for this type of property are generally in the range of 3% to 5% of the effective gross income (EGI). Due to the size of the project, we have used a figure nearer the lower end of the range or 3.50% of the EGI since this is a figure that the client will achieve on this project. The expected management costs or a fee of \$371,024 per annum. This figure will be used in our calculations;
5. Repairs and Maintenance– This item includes general repairs and maintenance, fire system monitoring, ground maintenance, pest control, building supply, enter phone and security system maintenance, and HVAC services. The repair and maintenance expense typically ranges from \$500 to \$1,000 per unit in a residential tower, depending on building condition and the nature of amenities in place. Considering the fact that the market units will be furnished a somewhat higher expense would; be expected. This would be offset by the size of the building and the state of the art mechanical and electrical systems in place, and the fact that all the units will be new. Overall, a figure

of \$800 per unit per annum based on 258 units will bring an annual total of \$206,400 per annum;

6. Caretaker & Relief Managers - According to the Employment Standards Act Resident Caretakers Fact Sheet, a caretaker of a building with 61 units or more must be paid a minimum amount of compensation. However, the calculations from the Employment Standards Act are deemed less accurate in larger building based on actual numbers from larger apartment buildings due to the professional management presence required. A figure of \$90,000 per annum will be used in our calculations;
7. Utilities –This item includes gas and electricity. This expense category can vary depending on the efficiency of systems in place. In the case of the subject property, the heating, lighting and hot water will be billed to the tenants since each unit will be separately metred for electricity which will run the baseboard heats and each unit will have their own hot water tank. This will minimize the energy bill for the landlord by a large degree compared to buildings that have a typical boiler system heating the hot water for all the units. The current electrical code for the City of Vancouver also includes occupancy sensors for common areas in the building and the parkade. This feature along with energy efficient LED lighting will contribute to considerable savings for electricity. Given all the building and energy efficient features a figure of \$1905 per unit per annum will be reasonable for the subject property. or a figure of \$50,000 (Rounded) per annum for electricity will be used for our calculations
8. Water & Sewer - Since the units are small in general, we will assume that no more people than the number of bedrooms that each unit has will stay in each unit. Therefore, there will be one person for each of the 21 studio apartments, and one person for each of the 142 one-bedroom units. The 76 two-bedrooms will accommodate 152 people and the 19 three-bedroom units are expected to house 57 people.

$21+142+152+57 = 372$ people are speculated to be living in the 258 units.

The City of Vancouver has three different fee schedules for water and sewer use. The unit of measurement is 100 cubic feet or 2,831.6 litres. The time period between October 15th, and April 30th represents the low season and involves a period of 197 days and a water fee of \$3.462 per unit is charged for 2024. The period between May 1 and October 14, a 168 day high season period, a per unit water fee of \$4.743 per unit is charged. A

flat fee of \$3.784 per unit is charged for sewer. Using low flow toilets, shower heads and faucets, a total per person per day water usage estimate is 250 litres per day, therefore the following calculations apply:

$$372 \text{ people} \times 250 \text{ litres} \times 365 \text{ days} = 33,945,000 \text{ litres}$$

$$33,945,000 \text{ litres} / 2,831.6 = 11,988 \text{ Units per annum.}$$

54% of the time, the per unit charge will be \$3.784 while the remainder of the time will be charge \$4.743 per unit:

$$11,988 \times 0.54 = 6,473.52 \text{ units (between October 15 \& April 30)}$$

The remainder is approximately 5,514.48 units for the other part of the year, therefore the following calculation applies:

$$6,473.52 \text{ units} \times \$3.784 \text{ per unit} = \$24,496$$

$$5,514.48 \text{ units} \times \$4.743 \text{ per unit} = \$26,155$$

The sewer charge is a flat rate for the entire amount with the following calculation that applies:

$$11,988 \text{ unit} \times \$5.507 \text{ per unit} = \$66,018$$

$$\$24,496 + \$26,155 + \$66,018 = \$91,113$$

When adding the projected water and sewer charges, a total figure of \$120,000 (Rounded) per annum results. This figure will be used in our calculations;

9. Elevator Maintenance – This expense category can vary depending on the type of elevator and the company contract to provide the regular maintenance required for the elevators. The subject property will include three elevators. The owner shave projected a cost of \$3,000 per month for this item. Therefore a projected annual fee of \$36,000 per annum will be used in our calculations;
10. Advertising – This expense can range depending on the demand in the market and the degree of marketing that has been conducted for the project. A figure of \$20,000 per annum would be considered reasonable;
11. Miscellaneous and Contingency Expense – As the subject has yet to be constructed and

has yet to create a record of expenses, a figure of 1.0% of the effective gross income will be used to address some of the unknowns in the project such as building energy efficiency, actual water usage, property tax levy and smaller items such as licensing fees. This figure will amount to a contingency of \$106,007 per annum which may decline after the first year or two of operations.

Based on the above, a proforma operating statement for the subject is outlined on the following page.

	Total Expense Ratio		16%

Purpose built new apartment buildings of this size can generally achieve an expense ratio below 20% of the effective gross income. The above proforma for the subject property indicates a projected expense ratio of 16%. With effective management, the possibility does exist to bring the expense ratio down a few points, however the projected expense ratio addresses some of the unknown factors such as utilities, water usage and property taxes, which are difficult to project.

CAPITALIZATION

The capitalization process is a procedure whereby the net operating income of property is converted into an estimated present worth by the application of a factor referred to as an overall capitalization rate. The capitalization rate is a conversion factor appropriate to the property being appraised that is applied to the potential income stream and then converted into a capital value. Capital value and market value are considered synonymous for the purpose of this report. The relationship between the net operating income and value can be summarized by the following formula:

$$\frac{\text{NET OPERATING INCOME}}{\text{OVERALL CAPITALIZATION RATE}} = \text{VALUE}$$

As was mentioned previously, we have determined that the Direct Capitalization Method would be most appropriate for a property such as the subject. A review of various sales of properties having similar characteristics to the subject has been undertaken in order to establish an appropriate capitalization rate, and are outlined in the following pages:

CONCLUSIONS

A series of nine comparables have been included for the comparison process in this instance, and suggest a range in capitalization rates, varying from 3.50% to 4.30%. The focus has been on newer projects with limited rental upside and redevelopment potential. These features tend to impact the applicable rates of return and generally lead to very low initial returns being in place.

Index No. 3 is the oldest of the indicators having been built in 2013 which would have some upside to the rents which has depressed the rate to a degree.

The balance of the indicators involve newer buildings rented at close to current market levels. Two of these are situated in Langley and would require downward adjustments to the rates reflected for location. The remaining comparables primarily entail Vancouver properties with one also being in North Vancouver and one involving a listing in Coquitlam. The rates reflected tend to be very consistent at 4.10% to 4.30%.

Index No. 4 is based on the sale of a new high rise mixed-use project located along East Broadway close to an LRT Station. The location would be considered slightly inferior to the subject however the capital cost is quite a bit lower. The mixed-use status is similar to the subject scenario.

The two most recent sales both reflect rates of 4.10% but involve lower capital costs with one having a similar West Broadway location while the other is inferior in this regard being in east Vancouver. One involves a mixed-use format while both entail lower capital cost outlays.

Overall, a rate in the 4.00% to 4.25% range would be considered reasonable for the subject. To further refine this range the comparative investment features of the subject will be reviewed and are summarized following:

- Interest rates are declining, and this trend is expected to continue;
- The apartment rental market is strong at present;
- The apartment investment market has improved over the previous few years;
- The property will have LRT access nearby soon after completion;
- The building will be new and in good overall condition;
- No upside to the rents will be available as it will be rented at market levels;
- The commercial use is considered to exhibit a slightly higher level of risk than residential use;
- The rental of furnished apartments tends to lead to shorter term tenants and a resulting lack of stability to the income stream along with some additional costs. These factors have been considered in the income analysis but still provides a bit higher level of uncertainty than typical apartment projects;
- The property represents a higher capital cost than is typical in the local market.

Based on the above, a rate at the upper end of the range or 4.25% would be considered applicable. This would provide a value as follows:

NET OPERATING INCOME**OVERALL CAPITALIZATION RATE = VALUE****\$1,123,597 (Commercial NOI) + \$8,929,315 (Apartment NOI)****4.25%****= \$236,539,106****ROUNDED TO: \$240,000,000**

DIRECT COMPARISON APPROACH TO VALUE

The Direct Comparison Approach is a technique whereby comparable property transactions are broken down into a unit of comparability, and after a series of adjustments for differences between the individual indicators and the subject, a value indication is derived. For comparative purposes, the properties outlined within the Income Approach will be analyzed on a sales price per suite basis as follows:

CONCLUSIONS

The comparables demonstrate a range in prices per suite, varying from a low of \$238,918 to a high of \$791,908 per suite. Differences are evident dependent on location, age, unit size, type and condition of the building, etc. A review of the comparables would indicate that those projects with the highest Net Operating Income per suite also generally tend to sell for correspondingly higher value levels on a per unit basis.

Following, each of the comparables will be adjusted for the difference in NOI per unit compared to the subject. The NOI tends to reflect the differences evident between the properties in terms of age, location, unit mix, condition, etc. Since the subject property has both a residential and commercial component generating income, we have used the NOI attributable to the residential portion of the subject property for comparison with the 9 comparable sales above:

	Subject		\$38,965		

Conclusions

After adjustment, a significant narrowing of the range generally occurs, however in this case some significant adjustments have been made with five of nine having over a 50% adjustment. Larger adjustments in general will tend to skew the results. Nevertheless, due to the number of comparables, the average at \$957,138 per suite is helpful in supporting the Income Approach with the range being quite consistent overall.

Essentially, the subject property is unique to the market in terms of its size and the commercial space in place and highly similar comparables are scarce. In addition, significant parking and storage income is included in the overall NOI for the subject.

Index No. 7 required the least adjustment and indicates a value of about \$950,000 per suite. This tends to be close to the average noted above.

In considering the factors of the overall condition, age, investment size, location, mix and size of units and the commercial component involved for the subject as outlined previously, a figure of \$950,000 per unit would be considered reasonable for the subject property. This would indicate the following total value:

258 suites x \$950,000 per suite = \$245,100

ROUNDED TO: \$245,000,000

RECONCILIATION AND FINAL ESTIMATE OF VALUE

Two approaches to value were undertaken within both the retail and residential portions of the subject property, and the following value indications were provided:

Income Approach:	\$240,000,000
Direct Comparison Approach:	\$245,000,000

The Income Approach is considered to be the most appropriate method of valuation in this instance. The subject comprises an income producing entity and, as such, the most likely purchase would be based upon the income stream that the property is capable of producing.

The Direct Comparison Approach has been completed for support purposes relative to our analysis. This is considered to be a good secondary technique in this instance, with the value estimate being supportive of the value estimated through the Income Approach.

Overall, we are of the opinion that the Income Approach provides the best indication of value for the subject property operating as a market rental building and, as such, it is our opinion that the best estimate of value for the subject property as a whole, as of the effective date of the appraisal, would be based the figures derived from the income approach for both the residential and commercial portions of the project. Therefore, the final value of the subject property is as follows:

TWO HUNDRED AND FORTY MILLION DOLLARS
\$240,000,000

APPENDIX "C"

ASSUMPTIONS AND LIMITING CONDITIONS

The certification that appears in this report is subject to compliance with the Personal Information and Electronics Documents Act (PIPEDA), Canadian Uniform Standards of Professional Appraisal Practice (“CUSPAP”) and the following conditions:

1. This report is prepared only for the client and authorized users specifically identified in this report and only for the specific use identified herein. No other person may rely on this report or any part of this report without first obtaining consent from the client and written authorization from the authors. Liability is expressly denied to any other person and, accordingly, no responsibility is accepted for any damage suffered by any other person as a result of decisions made or actions taken based on this report. Liability is expressly denied for any unauthorized user or for anyone who uses this report for any use not specifically identified in this report. Payment of the appraisal fee has no effect on liability. Reliance on this report without authorization or for an unauthorized use is unreasonable.
2. Because market conditions, including economic, social and political factors, may change rapidly and, on occasion, without warning, this report cannot be relied upon as of any date other than the effective date specified in this report unless specifically authorized by the author(s).
3. The author will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The property is appraised on the basis of it being under responsible ownership. No registry office search has been performed and the author assumes that the title is good and marketable and free and clear of all encumbrances. Matters of a legal nature, including confirming who holds legal title to the appraised property or any portion of the appraised property, are outside the scope of work and expertise of the appraiser. Any information regarding the identity of a property’s owner or identifying the property owned by the listed client and/or applicant provided by the appraiser is for informational purposes only and any reliance on such information is unreasonable. Any information provided by the appraiser does not constitute any title confirmation. Any information provided does not negate the need to retain a real estate lawyer, surveyor or other appropriate experts to verify matters of ownership and/or title.
4. Verification of compliance with governmental regulations, bylaws or statutes is outside the scope of work and expertise of the appraiser. Any information provided by the appraiser is for informational purposes only and any reliance is unreasonable. Any information provided by the appraiser does not negate the need to retain an appropriately qualified professional to determine government regulation compliance.
5. No survey of the property has been made. Any sketch in this report shows approximate dimensions and is included only to assist the reader of this report in visualizing the property. It is unreasonable to rely on this report as an alternative to a survey, and an accredited surveyor ought to be retained for such matters.
6. This report is completed on the basis that testimony or appearance in court concerning this report is not required unless specific arrangements to do so have been made beforehand. Such arrangements will include, but not necessarily be limited to: adequate time to review the report and related data, and the provision of appropriate compensation.
7. Unless otherwise stated in this report, the author has no knowledge of any hidden or unapparent conditions (including, but not limited to: its soils, physical structure, mechanical or other operating

systems, foundation, etc.) of/on the subject property or of/on a neighbouring property that could affect the value of the subject property. It has been assumed that there are no such conditions. Any such conditions that were visibly apparent at the time of inspection or that became apparent during the normal research involved in completing the report have been noted in the report. This report should not be construed as an environmental audit or detailed property condition report, as such reporting is beyond the scope of this report and/or the qualifications of the author. The author makes no guarantees or warranties, express or implied, regarding the condition of the property, and will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. The bearing capacity of the soil is assumed to be adequate.

8. The author is not qualified to comment on detrimental environmental, chemical or biological conditions that may affect the market value of the property appraised, including but not limited to pollution or contamination of land, buildings, water, groundwater or air which may include but are not limited to moulds and mildews or the conditions that may give rise to either. Any such conditions that were visibly apparent at the time of inspection or that became apparent during the normal research involved in completing the report have been noted in the report. It is an assumption of this report that the property complies with all regulatory requirements concerning environmental, chemical and biological matters, and it is assumed that the property is free of any detrimental environmental, chemical legal and biological conditions that may affect the market value of the property appraised. If a party relying on this report requires information about or an assessment of detrimental environmental, chemical or biological conditions that may impact the value conclusion herein, that party is advised to retain an expert qualified in such matters. The author expressly denies any legal liability related to the effect of detrimental environmental, chemical or biological matters on the market value of the property.
9. The analyses set out in this report relied on written and verbal information obtained from a variety of sources the author considered reliable. Unless otherwise stated herein, the author did not verify client-supplied information, which the author believed to be correct.
10. The term “inspection” refers to observation only as defined by CUSPAP and reporting of the general material finishing and conditions observed for the purposes of a standard appraisal inspection. The inspection scope of work includes the identification of marketable characteristics/amenities offered for comparison and valuation purposes only.
11. The opinions of value and other conclusions contained herein assume satisfactory completion of any work remaining to be completed in a good and workmanlike manner. Further inspection may be required to confirm completion of such work. The author has not confirmed that all mandatory building inspections have been completed to date, nor has the availability/issuance of an occupancy permit been confirmed. The author has not evaluated the quality of construction, workmanship or materials. It should be clearly understood that this visual inspection does not imply compliance with any building code requirements as this is beyond the professional expertise of the author.
12. The contents of this report are confidential and will not be disclosed by the author to any party except as provided for by the provisions of the CUSPAP and/or when properly entered into evidence of a duly qualified judicial or quasi-judicial body. The author acknowledges that the information collected herein is personal and confidential and shall not use or disclose the contents of this report except as provided for in the provisions of the CUSPAP and in accordance with the author’s privacy policy. The client agrees that in accepting this report, it shall maintain the confidentiality and privacy of any personal

information contained herein and shall comply in all material respects with the contents of the author's privacy policy and in accordance with the PIPEDA.

13. The author has agreed to enter into the assignment as requested by the client named in this report for the use specified by the client, which is stated in this report. The client has agreed that the performance of this report and the format are appropriate for the intended use.
14. This report, its content and all attachments/addendums and their content are the property of the author. The client, authorized users and any appraisal facilitator are prohibited, strictly forbidden, and no permission is expressly or implicitly granted or deemed to be granted, to modify, alter, merge, publish (in whole or in part) screen scrape, database scrape, exploit, reproduce, decompile, reassemble or participate in any other activity intended to separate, collect, store, reorganize, scan, copy, manipulate electronically, digitally, manually or by any other means whatsoever this appraisal report, addendum, all attachments and the data contained within for any commercial, or other, use.
15. If transmitted electronically, this report will have been digitally signed and secured with personal passwords to lock the appraisal file. Due to the possibility of digital modification, only originally signed reports and those reports sent directly by the author can be reasonably relied upon.
16. This report form is the property of the Appraisal Institute of Canada (AIC) and for use only by AIC members in good standing. Use by any other person is a violation of AIC copyright.
17. Where the intended use of this report is for financing or mortgage lending or mortgage insurance, it is a condition of reliance on this report that the authorized user has or will conduct lending, underwriting and insurance underwriting and rigorous due diligence in accordance with the standards of a reasonable and prudent lender or insurer, including but not limited to ensuring the borrower's demonstrated willingness and capacity to service his/her debt obligations on a timely basis, and to conduct loan underwriting or insuring due diligence similar to the standards set out by the Office of the Superintendent of Financial Institutions (OSFI), even when not otherwise required by law. - (b) the Loan, and all amounts outstanding owed to BCHMC arising under or in connection with this Loan Commitment Letter and the Security Documents (as defined below), will in any event be repaid in full by no later than the earlier of:

In the event that the aggregate amount outstanding in respect of

the Loan based on advances of the Loan made from time to time is less than the Loan amount set forth in Section 4.1 above, BCHMC may, in its sole and unfettered discretion, reduce the Commitment Fee accordingly. The final amount of the Commitment Fee will be confirmed by BCHMC in the payout statement for the Loan and/or by e-mail to the Borrower upon request by the Borrower to BCHMC.

- 9.2. The Commitment Fee, or any portion thereof, collected by BCHMC in connection with the Loan will be retained by BCHMC as consideration for the time, effort and expense incurred by it in reviewing documents and setting up the Loan. The Borrower acknowledges and agrees that the Commitment Fee, or any portion thereof, collected by BCHMC represents a fair and reasonable estimate of the costs incurred by BCHMC.

These signs may be removed at the time of landscaping.
- 21.10. **Opening Ceremony** – The Borrower and BCHMC will work together to coordinate an official opening ceremony for the Project which should take place within a few months of the occupancy date. Event dates are impacted by the availability of provincial and/or federal and municipal representatives. The final approval of event dates is at the discretion of BCHMC. (See GC11.1 Insurance Clause of the Supplementary General Conditions of the Stipulated Price Contract for additional details and requirements.)

B. Operating Insurance Requirements (please carefully read the notes at the bottom of the page):

British Columbia Housing Management Commission ("BCHMC") requires that the Borrower/Owner of the Project obtain a quote from Marsh Canada ("Marsh"), who have set up a Group Insurance Program for Operating Insurance. Even if you do not get your insurance coverage through the Group Insurance Program, BCHMC requires a copy of the quote to be included with your financial statements.

1. Insurance must be carried for the full 100% replacement cost of the building. Co-insurance is not acceptable. Coverage shall be written on an "all risks" form, including flood and earthquake.
2. Loss payable is to be in favour of BCHMC, or the lender of monies, as mortgagee. A standard mortgage endorsement clause (IBC 3000) is to form part of the policy.
3. BCHMC must continue to be named as an additional insured until the Loan is repaid and BCHMC is not the lender of the funds for the Project.
4. Rental Income Insurance for a full 100% of rentals lost during a minimum term of 6 months is required, or for an indemnity period equal to the estimated full reconstruction period.
5. The correct civic description of the Property must be specified.
6. Commercial General Liability Insurance including personal injury and non-owned auto insurance coverage (for a minimum of \$10,000,000 for each occurrence). This policy must include a cross liability clause.
7. Where applicable, boiler, vessel, and air-conditioning insurance in comprehensive form, against breakdown of boilers, engines, machinery and electrical apparatus for a minimum of the loan amount. Insurance is to be written on a Replacement Cost wording with a waiver of co-insurance requirement. Rental Income Insurance is required as stipulated under Clause B.4.
8. All fixtures, furnishings and equipment must be insured for the full replacement value and must cover all risks.
9. By-law coverage clause for both the building and tenant improvements including:
 - a. loss occasioned by enforcement of any laws or ordinances regulating the construction or repair of the buildings or structures enforced at the time that a loss occurs, which requires the demolition of any portion of the insured buildings or structures which have not suffered damages; and
 - b. the cost incurred in actually rebuilding both the damaged and demolished portions of the insured buildings or structures with materials and in a manner to fully satisfy such ordinances or laws.

A BCHMC signed government Certificate of Insurance (form as enclosed) is required if Operating Insurance is not purchased through the Group Insurance Program with Marsh. Please ensure that all the requirements as specified in the above "**Section B – Operating Insurance Requirements – items 1-9(b)**" are in compliance and detailed in the attached Certificate of Insurance form. Please provide completed Certificate of Insurance to BCHMC at #1701 - 4555 Kingsway, Burnaby, B.C. NOTE:

*Where the borrower has entered into a ground lease (for example, if the owner of the land is Provincial Rental Housing Corporation or any municipal government), then all insurance referred to in A and B shall include the owner as a named insured and, with respect to property insurance, as a loss payee, as its interests may appear. Proof of insurance should be forwarded to the owner.

2. LOAN

2.1 Loan

Subject to the terms and conditions of this Agreement (including, without limitation, Section 4.2 of this Agreement), the Lender hereby establishes and agrees to make the Loan available to the Borrower. The Loan shall be advanced by way of a single Advance. The Borrower acknowledges and agrees that the Indebtedness includes, without limitation, the following for which the Borrower covenants to pay to or to the order of the Lender:

- (a) the Loan;
- (b) interest on the Loan at the interest rate specified in the Portage Commitment in effect from time to time (the "**Portage Interest Rate**"), with interest calculated and compounded monthly;
- (c) 50.5% of any and all other amounts paid or payable by the Lender to Portage under and pursuant to the Portage Commitment, including, without limitation, brokerage fees and insurance consultant fees (the "**Additional Payments**"), but excluding amounts paid or payable by the Lender to Portage relating to enforcement by Portage pursuant to the Portage Commitment and excluding payments of principal and interest paid or payable under and pursuant to the Portage Commitment;

- (e) a commitment fee equal to 1.5% of the Loan payable to the Lender for making the Loan available to the Borrower and will be deemed to be earned by the Lender immediately upon the execution of this Agreement by the Borrower and shall be paid by the Borrower on or before the end of the Term on the Maturity Date;

3. INTEREST

3.1 Calculation of Interest

For the purposes of calculating the completion fee, the outstanding balance of the Loan from time to time shall bear interest at an annual interest rate of 5% per annum, all interest calculated and compounded monthly, interest to begin accruing concurrently with funding of the Advance of the Loan and continuing up to and including the Maturity Date and thereafter, both before and after any Event of Default and judgment, until such amount is paid to the Lender.

Interest shall be calculated on the basis of a 365-day year, irrespective of whether or not the applicable year is a leap year.

3.2 Maximum Rate of Interest

The Borrower acknowledges and agrees that the payment of interest and any further consideration to the Lender is a fair payment based on the business terms of the Loan. The Borrower and the Lender acknowledge and agree that it is their express intention and desire that in no event shall the total payment to the Lender whether for interest, fees, commission, additional consideration or otherwise exceed the maximum payment permitted under Section 347 of the *Criminal Code*, R.S.C., 1985 c. C-46, as amended, and the parties further acknowledge and agree that notwithstanding any other terms or conditions of this Agreement or the Security Documents, the interest payable on the credit advanced under this Agreement (as "interest" and "credit advanced" are defined in Section 347 of the *Criminal Code*, R.S.C., 1985 c. C-46, as amended) shall not exceed an effective annual rate of interest of 60.0% calculated in accordance with generally accepted actuarial practices and principles. If the Borrower would, but for this clause, be obligated to pay interest on the credit advanced under this Agreement at a criminal rate (as "interest", "credit advanced" and "criminal rate" are defined in Section 347 of the *Criminal Code*, R.S.C., 1985 c. C-

46, as amended), the interest payable on the credit advanced under this Agreement shall be reduced to an effective annual rate of 60.0%, calculated in accordance with generally accepted actuarial practices and principles, firstly by reducing the amount of interest payable to the Lender, secondly (if required) by crediting any remaining excess that has been paid towards prepayment of the Loan, and thirdly (if required) by returning to the Borrower upon demand therefor any overpayment that may remain after such crediting.

4. **MATURITY**

4.1 **Maturity Date**

The outstanding principal balance of the Loan and all other Indebtedness (if any) together with all accrued and unpaid interest thereon shall become due and be payable on the Maturity Date.

4.2 **Termination of Loan**

If Portage demands payment of the Portage Loan relating to an occurrence of an Event of Default under this Agreement or if an Event of Default has occurred and is continuing for any reason whatsoever, the Lender may, in its sole and unfettered discretion (which may be exercised arbitrarily), elect to terminate its obligations under this Agreement and in respect of the Loan and to demand the Borrower immediately repay the outstanding balance of the Indebtedness together with interest thereon. In the event of such election, this Agreement shall otherwise remain in full force and effect until all such amounts have been paid by the Borrower to the Lender.

5. **REPAYMENT**

5.1 **Repayment**

The Borrower shall, after completion of construction of the Project (which, for the purposes of this Section 6.1, shall mean that an occupancy permit has been issued by the applicable municipal authority in respect of the entire Project) and prior to the Maturity Date, either:

- (a) refinance the Project in an amount sufficient to repay the Indebtedness in full, to repay the indebtedness owing under the senior construction loan in full and to repay any other indebtedness related to the Project in full (an “**Approved Refinancing**”); or
- (b) sell the Project to an arm’s length purchaser for a net purchase price in an amount sufficient to repay the Indebtedness in full, to repay the indebtedness owing under the senior construction loan in full and to repay any other indebtedness related to the Project in full (an “**Approved Sale**”).

5.2 **Repayment Priorities**

Upon the completion of either an Approved Refinancing or an Approved Sale, the Borrower shall remit the net proceeds of the Approved Refinancing or the Approved Sale, as the case may be, as follows:

- (a) first, to the senior construction lender, such monies as may be required to obtain a discharge of the senior construction mortgage;

- (b) then, to the Lender, until the Loan and any and all fees related therewith and accrued interest thereon are repaid in full;
- (c) then, to the Lender, until all other Indebtedness is repaid in full;
- (d) then, to repay any any other indebtedness related to the Project in full;
- (e) then, to the Borrower, the remainder of the net proceeds, if any.

5.3 Prepayments

The Borrower may prepay the Loan, the Indebtedness or any accrued interest thereon, in whole or in part, prior to the Maturity Date, provided always that no Event of Default has occurred and continued beyond the applicable cure period and a minimum of eighteen (18) months interest payments on the Loan has been earned at the Portage Interest Rate and at the rate for the completion fee set out in section 2.1(f) and the Additional Payments, including any interest thereon at the Portage Interest Rate, and the commitment fee set out in section 2.1(e) have been paid.

6. PAYMENTS

6.1 No Set-off

All amounts payable by the Borrower under this Agreement will be paid without set-off or counterclaim, and without any deductions or withholdings whatsoever.

6.2 Records of Advances and Payments

The Lender is hereby authorized to open and maintain books of account and other books and records evidencing all advances under the Loan, interest accruing thereon, fees, charges, and other amounts from time to time charged to the Borrower under this Agreement and/or the Security Documents; and amounts from time to time owing, paid, or repaid by the Borrower under this Agreement. All such books, accounts, and records will constitute *prima facie* evidence of the amount owing by the Borrower under this Agreement and the Security Documents; but the failure to make any entry or recording in such books, accounts, and records will not limit or otherwise affect the obligations of the Borrower under this Agreement and the Security Documents.

6.3 Place of Payments

All payments to be made by the Borrower to the Lender hereunder shall be made to the Lender at 670 – 1665 West Broadway, Vancouver, British Columbia, V6J 1X1. All monies received after 2:00 p.m. Vancouver British Columbia local time will be deemed received on the next Business Day.

10.2 Remedies of the Lender

Upon the occurrence and during the continuation of an Event of Default, the Lender may in its sole and absolute discretion (which may be exercised arbitrarily) by written notice to the Borrower declare all Indebtedness, plus the interest thereon, to be immediately due and payable by the Borrower and enforce all rights and remedies against the Borrower granted hereunder or under the Security Documents.

11.2 Evidence of Fulfillment

The Borrower shall provide or cause to be provided to the Lender or other Persons at the direction of the Lender such reports, certificates, opinions and confirmations, and shall use reasonable efforts to obtain the same from any other Person, as the Lender may require to satisfy itself that the conditions precedent to an Advance have been fulfilled.

11.3 Waiver of Conditions Precedent

The Lender may, in its sole and absolute discretion (which may be exercised arbitrarily), waive any condition precedent to an Advance without incurring any liability therefor and without prejudicing the Lender's ability to require compliance with such condition precedent in respect of any subsequent Advance.

1061511 B.C. Ltd., Jameson Broadway & Birch General Partner Ltd., and Jameson Broadway & Birch Limited Partnership
Notes to the Cash Flow Forecast
For the period November 15 – December 26, 2025

1. The cash flow statement (the “**Cash Flow Forecast**”) has been prepared by management (“**Management**”) of 1061511 B.C. Ltd., Jameson Broadway & Birch General Partner Ltd., and Jameson Broadway & Birch Limited Partnership (collectively, the “**Company**”), to set out the liquidity requirements of the Company during the *Companies’ Creditors Arrangement Act* proceedings (the “**CCAA Proceedings**”), assuming the CCAA Proceedings commence on or around November 24, 2025.

The CCAA Cash Flow Forecast is presented on a weekly basis from November 15 to December 26, 2025 (the “**Period**”) and represents Management's best estimate of the expected results of operations during the Period. Readers are cautioned that since the estimates are based on future events and conditions that are not ascertainable, the actual results achieved will vary, even if the assumptions materialize, and such variations may be material. There are no representations, warranties or other assurances that any of the estimates, forecasts, or projections will be realized. The projections are based upon certain estimates and assumptions discussed below and may be amended from time to time during the CCAA Proceedings. Upon such amendments, Management will update its cash flow forecast accordingly as included herein.

Unless otherwise noted, the CCAA Cash Flow Forecast is presented in Canadian dollars.

2. No receipts are expected from the construction project during the Period.
3. Catch-up payments to MetroCan represents payment required to be made for the project’s general contractor, MetroCan, to remobilize its construction team and re-commence construction on site. Amount presented excludes the corresponding holdback payment (which is accounted for separately – please see below).
4. Catch-up payments for soft costs relate to payments required for various essential service providers to re-commence work on site.
5. Post-filing hard-cost represents ongoing construction costs payable to MetroCan.
6. Holdback disbursements represent the 10% construction cost to be funded into the holdback account, in accordance with the *Builders Lien Act*.
7. Soft Costs payments during the Period relate to ongoing services required for the construction of the project. Insurance is paid up to date and the current insurance policy expires on January 3, 2026. The Company is seeking a quote to renew the insurance policy beyond the expiration date.
8. While the Company has sought an Interim Financing term sheet of \$25,875,000 from Maynbridge Capital in order to complete the project, Management does not expect the need to draw upon the Interim Financing during the first 10 days of the CCAA Proceedings, and as such, is not intending to seek court approval for the proposed Interim Financing at the Initial Order hearing. Interim financing fees and interest presented are calculated based on the terms as stipulated in the Interim Financing term sheet.

9. Restructuring professional fees have been forecast based on projected costs of professional services firms relating to the CCAA Proceedings and include the Company's legal counsel, the Monitor and its legal counsel.
