**AFFIDAVIT NO. 3 OF KIM PICARD**

**Sworn on January 8, 2025**

---

I, Kim Picard, of the City of Calgary, in the Province of Alberta, SWEAR AND SAY THAT:

1. I am a legal assistant at the law firm of Fasken Martineau DuMoulin LLP (“**Fasken**”), Canadian Rep Counsel in the above-noted proceedings. As such, I have personal

knowledge of the facts and matters hereinafter deposed to, save where stated to be based on information and belief, and where so stated I verily believe the same to be true.

2. Unless otherwise stated, all monetary references in this affidavit are references to Canadian dollars.
3. I adopt the defined terms set out in Exhibit “1” to the Affidavit of Michael Edwards, sworn November 12, 2024, and my second Affidavit sworn in these proceedings on December 13, 2024 (the “**Second Picard Affidavit**”).
4. This Affidavit is intended to be read in conjunction with the Second Picard Affidavit.
5. I am advised by Ms. Robyn Gurofsky, a partner in Fasken, and I do believe, that since the time that I swore the Second Picard Affidavit to the date of this Affidavit, an additional 37 Canadian investors have replied to either Fasken’s December 5 correspondence or Pinnacle Wealth’s December 9 email at the [a2acanadianinvestor@fasken.com](mailto:a2acanadianinvestor@fasken.com) email address (the “**Fasken A2A Email Address**”).
6. As at the date of this Affidavit, a total of 120 Canadian investors have sent responses to the Fasken A2A Email Address. Of these:
  - (a) 42 report to have invested in Angus Manor for a total investment amount of \$1,030,500;
  - (b) 36 report to have invested in Fossil Creek for a total investment amount of \$809,300; and
  - (c) 46 report to have invested in Windridge for a total investment amount of \$1,006,233,with four investors each reporting investments in multiple projects.
7. The responses received from the Canadian investors at the Fasken A2A Email Address, indicate the following:

- (a) no Canadian investors in Angus Manor, Fossil Creek, or Windridge have received any financial reporting from the A2A Group in respect of their investments in the last six years;
- (b) no Canadian investors in Fossil Creek or Windridge have received notice of a General or Special meeting of the trust unitholders of Fossil Creek A2A Trust or Hills of Windridge A2A Trust, respectively;
- (c) Canadian investors in Angus Manor have not received any repayments on their investments to date;
- (d) of the 36 Canadian investors in Fossil Creek who responded, 15 investors report to have received some repayments totalling approximately \$33,109.42. Most of these repayments appear to have occurred in 2017. Other Canadian investors in Fossil Creek have not received any payments to date;
- (e) of the 46 Canadian investors in Windridge who responded, 18 investors report to have received small repayments primarily between 2016 and 2018, totalling approximately \$30,298. These investors have not received any payments since. Other Canadian investors in Windridge have not received any payments to date;
- (f) of the 120 Canadian investors who replied, one investor indicated that they were supportive of how the A2A Group had handled their investments to date; however, this individual also indicated they were supportive of the ongoing appointment of the Monitor. A further two investors indicated they were unsure if they supported the A2A Group's handling of their investments to date;
- (g) two of the 120 responding Canadian investors did not answer the question as to whether they supported the ongoing appointment of the Monitor over the Debtor Companies; and

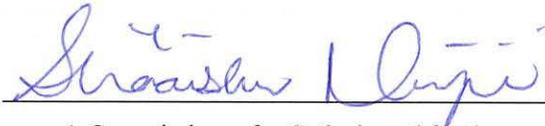

This is Exhibit "A"

Referred to in the Affidavit of

KIM PICARD

Sworn before me this 8 day of  
January, 2025

We are in our in our later 80s and our investment obviously was small on the bigger scale, but IT REPRESENTED A SIGNIFICANT AMOUNT for us as seniors on a fix[ed] income. There has been virtually NO COMMUNICATION from them. We could never endorse them as a reputable company. [...] WE are very supportive of Alvarez& Marsal Canada Inc. continuing the investigation into A2A's financial affairs."

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 13.5 million, and the number of people aged 75 and over has increased from 4.5 million to 6.5 million (Office for National Statistics 2000). The number of people aged 65 and over is expected to increase to 16.5 million by 2020, and the number of people aged 75 and over to 8.5 million (Office for National Statistics 2000).

There is a growing awareness of the need to address the needs of older people, and the need to ensure that they are able to live independently and actively in their own homes. This has led to a number of initiatives, including the development of the concept of 'age-friendly' environments (World Health Organization 2002). The concept of age-friendly environments is based on the idea that the environment should be designed to meet the needs of older people, and to enable them to live independently and actively in their own homes.

The concept of age-friendly environments is based on the idea that the environment should be designed to meet the needs of older people, and to enable them to live independently and actively in their own homes. This includes the need to ensure that the environment is accessible, safe, and comfortable, and that it provides opportunities for social participation and engagement. The concept of age-friendly environments is also based on the idea that the environment should be designed to meet the needs of older people, and to enable them to live independently and actively in their own homes.

the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.5 billion (United Nations 1994).

There are a number of reasons why the number of children in the world is increasing. One of the main reasons is that the number of children who are surviving to adulthood is increasing. This is due to a number of factors, including improved medical care, better nutrition, and a decrease in child mortality.

Another reason why the number of children in the world is increasing is that the number of children who are being born is increasing. This is due to a number of factors, including a decrease in the age at which women are having children, and an increase in the number of children who are being born to women who are already having children.
